Subject index*

A

- Abortifacient, midtrimester, intra-amniotic urea as: Clinical results and serum and urinary changes (Burnett et al.), 7
- Abortion(s), early midtrimester, extraovular prostaglandin $F_{2\alpha}$ (Shapiro), 333
- induced, delay in seeking: Review and theoretical analysis (Bracken and Kasl), 1008 (Current developments)
- midtrimester, and fetal loss, infections with mycoplasma and bacteria in (Sompolinsky et al.), 610
- instillation-to-, time, morbidity, and oxytocin administration associated with saline instillation (Berger, Edelman, and Kerenyi), 941
- legalized, effect of, on morbidity resulting from criminal abortion (Kahan, Baker, and Freeman), 114
- midtrimester, effect of prostaglandin $F_{2\alpha}$ and hypertonic saline on placental function during (Jayaraman et al.), 528
- induced by serial intramuscular injections of 15(S)-15-methyl-prostaglandin $F_{2\alpha}$ (Lauersen and Wilson), 273 (Current investigation)
- preliminary experience with 15(S)-15-methyl prostaglandin $F_{2\alpha}$ for (Greer, Droegemüller, and Engel), 524
- mode of action of hypertonic saline in inducing (Llewellyn-Jones, Clarke, and Shutt), 568 (Comm. in brief)
- restricting legal: Some maternal and child health effects in Romania (Wright), 246
- saline-induced, water intoxication associated with oxytocin administration during (Lauersen and Birnbaum), 2
- second-trimester, efficacy of intramuscular 15 methyl prostaglandin E_2 in (Dillon et al.), 584
- threatened, prediction of fetal outcome in, by maternal serum placental lactogen and alpha fetoprotein (Garoff and Seppälä), 257
- 300 saline-induced, volume and sodium concentration studies in (Kerenyi and Muzsnai), 590
- Acid(s)-base and biochemical characteristics of intrapartum fetal asphyxia (Low et al.), 446
- concentrations, plasma deoxyribonucleic, of women in labor and umbilical cords (Kamm and Smith), 29
- fatty, amniotic fluid phospholipids and, in normal pregnancies (Schirar et al.), 653
- metabolism, fatty, glucose and, enzymes of, in early and term human placenta (Diamant et al.), 58
- nucleic, polysome pattern, and glycoprotein composition of human endometrium, effect of intrauterine copper on (Hicks et al.), 981
- Acidosis, maternal metabolic, blood flow to human uterus during (Blechner, Stenger, and Prystowsky), 789
- ACTH, cortisol and, on regulation of fetal and maternal 16 α -hydroxydehydroepiandrosterone and its sulfate by, in human pregnancy at term (Simmer, Frankland, and Greipel), 646
- Adenocarcinoma, minimal deviation ("adenoma malignum"), of cervix: Reappraisal (Silverberg and Hurt), 971
- "Adenoma malignum" (minimal deviation adenocarcinoma) of cervix: Reappraisal (Silverberg and Hurt), 971
- Adhesion formation, peritoneal, effect of thirty-two per cent dextran 70 on (Neuwirth and Khalaf), 420
- Adnexal mass, right, mesenteric and pancreatic lymphangioma presenting as (Epstein and Berman), 1117 (Comm. in brief)
- Adolescence, congenital nongonitrous hypothyroidism with menorrhagia as primary complication of (Santana and Gardner), 289 (Comm. in brief)
- Adrenal glands, fetal, possible role of, in etiology of postmaturity (Nwosu et al.), 366
- hyperplasia, congenital, caused by 11 β -hydroxylase deficiency with onset of symptoms after one spontaneous pregnancy (Toaff, Toaff, and Chayen), 202
- Adrenocorticotrophic hormone (ACTH), cortisol and, on regulation of fetal and maternal 16 α -hydroxydehydroepiandrosterone and its sulfate by, in human pregnancy at term (Simmer, Frankland, and Greipel), 646
- Affinity-labeling steroids, synthesis and use of, for interceptive purposes (Clark, Sweet, and Warren), 864
- Age, small-for-gestational, infants, placental pathology of (Altshuler, Russell, and Ermocilla), 351
- of pregnancy, fetal heart rate, and maternal heart rate, correlation of (Eisenberg de Smoler, Smith, and Karchmer), 62
- Agensis, Müllerian duct, associated with renal and skeletal abnormalities (Muechler), 567 (Comm. in brief)
- Agglutinating, sperm-, antibodies and testicular morphology in fifty-nine men with azoospermia or cryptozoospermia (Friberg and Kessler), 987
- Alkaline phosphatase, phosphoglucose isomerase, phosphoglucomutase, hexokinase, and lactate dehydrogenase: Enzymes of normal and malignant trophoblast (Edlow et al.), 674
- Alpha fetoprotein, maternal serum placental lactogen and, prediction of fetal outcome in threatened abortion by (Garoff and Seppälä), 257
- Amenorrhea, secondary, clinical categorization of patients with, using progesterone-induced uterine bleeding and measurement of serum gonadotropin levels (Kletzky et al.), 695
- short-term, use of serum luteinizing hormone in clinical management of (Bloch), 1021 (Clinical opinion)
- American Association of Obstetricians and Gynecologists, transactions, eighty-fifth annual meeting, 739-873, 877-918
- Amnii, liquor, and plasma, human, angiotensins I and II, active and inactive renin, renin substrate, renin activity, and angiotensinase in (Skinner et al.), 626
- Amnionitis, intrapartum gonococcal (Rothbard, Gregory, and Salerno), 565 (Comm. in brief)
- Amniotic fluid, biochemical analyses of: Fetal maturity (Myers, Harrell, and Hill), 961
- embolism, pregnancy in presence of intrauterine contraceptive device and: Possible association (Thomsen), 279 (Comm. in brief)
- lecithin concentration, risk of respiratory distress syndrome as determined by (Nelson), 753
- /sphingomyelin ratio, effects of blood or meconium on determination of (Buhi and Spellacy), 321
- maternal and fetal blood and, rapid method for measurement of estradiol and hydrocortisone levels in (Sybulski and Maughan), 32
- phospholipid(s) analysis in normal and complicated pregnancies (Duhring and Thompson), 218
- and fatty acids in normal pregnancies (Schirar et al.), 653
- and fetal lung maturity. I. Assessment of various methods of determining lecithin and sphingomyelin (Jackson, Anderson, and Held), 1095
- Analgesia, lumbar epidural, with bupivacaine in labor (Belfrage et al.), 360
- regional, effect of, on maternal oxygen consumption during first stage of labor (Sangoul, Fox, and Houle), 1080
- Androgen(s) in breast cancer. III. Breast cancer recurrences years after mastectomy and increased androgenic activity (Grattarola, Secreto, and Recchione), 169
- gonadotropins, and estrogens, circulating, in polycystic ovarian disease (DeVane et al.), 496
- Androgenic activity, increased, breast cancer recurrences years after mastectomy and, III. Androgens in breast cancer (Grattarola, Secreto, and Recchione), 169
- Androstenedione levels, serum, during normal and human menopausal gonadotropin-induced human pregnancies (Thornycroft et al.), 306

*January 1, 1-152; January 15, 153-292; February 1, 293-440; February 15, 441-582; March 1, 583-738; March 15, 739-876; April 1, 877-1020; April 15, 1021-1150.

- Aneurysm, ruptured berry, in pregnant patient at term (Borno et al.), 573 (Comm. in brief)
- Angiogenesis of cervical neoplasia (Stall and Mattingly), 845
- Angiotensin(s) I and II, active and inactive renin, renin substrate, renin activity, and angiotensinase in human liquor amnii and plasma (Skinner et al.), 626
- Angiotensinase, angiotensins I and II, active and inactive renin, renin substrate, and renin activity in human liquor amnii and plasma (Skinner et al.), 626
- Anosmia and hypogonadism with ovarian mosaicism (Jones et al.), 991
- Anovulatory women, normal and, effects of Danazol on gonadotropins and steroid blood levels in (Andrews and Wentz), 817
- Antenatal fetal growth from nineteenth week (Levi and Erbsman), 262
- Antepartum clinical evaluation of uteroplacental respiratory function, use of oxytocin challenge test for (Freeman), 481 (Clinical opinion)
- Antibiotic prophylaxis in gynecology, guidelines for (Ledger, Gee, and Lewis), 1038
- Antibody (antibodies) against spermatozoa in infertile women with poorly invading spermatozoa on postcoital tests (Wall et al.), 198
- sperm-agglutinating, and testicular morphology in fifty-nine men with azoospermia or cryptozoospermia (Friberg and Kjessler), 987
- Antigen, carcinoembryonic, in patients with gynecologic malignancies (DiSaia et al.), 159
- level, carcinoembryonic, variations of, in plasma of patients with gynecologic cancers during therapy (Barrelet and Mach), 164
- Appendix, endometriosis of (Uohara and Kobara), 423
- Arteriovenous fistula, ovarian (Weed et al.), 569 (Comm. in brief)
- Artery (arteries), isolated human uterine, in vitro, investigations into spontaneous contractile activity of (Czekanowski), 718
- ligation, prophylactic internal iliac, at cesarean hysterectomy (Pelosi, Langer, and Hung), 394
- Asphyxia, fetal, incidence of, in six hundred high-risk monitored pregnancies (Low et al.), 456
- intrapartum fetal, acid-base and biochemical characteristics of (Low et al.), 446
- clinical characteristics of pregnancies complicated by (Low et al.), 452
- Assay(s), methadone, in pregnant women and progeny (Blinick et al.), 617
- Audiostimulation of human subjects, gonadotropin excretion in response to (Beardwood, Mundell, and Utian), 682
- Azoospermia or cryptozoospermia, sperm-agglutinating antibodies and testicular morphology in fifty-nine men with (Friberg and Kjessler), 987

B

- B₆ supplementation, vitamin, during pregnancy, adequacy of: Maternal and fetal plasma levels of pyridoxal phosphate at term (Cleary, Lumeng, and Li), 25
- Bacteremia on obstetric-gynecologic service (Ledger et al.), 205
- Bacteria, mycoplasma and, infections with, in induced midtrimester abortion and fetal loss (Sompolsky et al.), 610
- Ball pelvimetry, computerized aid to (Klapholz), 1067
- Basal cell carcinoma, vulvar, with metastasis: Case report (Jimenez, Fenoglio, and Richart), 285 (Comm. in brief)
- laminae, fetal capillary, of "normal" human term placentas, electron microscopic study of (Martinek, Gallagher, and Essig), 17
- Belt, incorrectly used seat, associated with uterine rupture following vehicular collision (Matthews), 1115 (Comm. in brief)
- Benign and neoplastic, human cervical epithelium, in vitro studies on (Wilbanks), 771
- Berotec (Th 1165a), effect of, on spontaneous and induced uterine activity in pregnant baboon (Lauersen, Wilson, and Fuchs), 597
- Berry aneurysm, ruptured, in pregnant patient at term (Borno et al.), 573 (Comm. in brief)
- Beta-receptor stimulation in essential dysmenorrhea (Hansen and Secher), 566 (Comm. in brief)
- Bilirubin transfer, maternal/fetal (Hibbard), 282 (Comm. in brief)
- Biochemical analyses of amniotic fluid: Fetal maturity (Myers, Harrell, and Hill), 961
- characteristics, acid-base and, of intrapartum fetal asphyxia (Low et al.), 446

- Biopsied, all vulvar lesions should be (Goldstein and Kent), 173
- Biosynthesis, fetoplacental, of estrogens, effect of exogenous dehydroepiandrosterone upon, and its effect upon uterine blood flow in term pregnant ewe (Pupkin et al.), 227
- in vitro, of TSH- and LH-releasing factors by human placenta (Gibbons, Mitnick, and Chieffo), 127 (Current investigation)
- Biparietal diameter growth standards, sonar, in rhesus monkey (Sabagha, Turner, and Chez), 371
- Birth(s), 313 consecutive live, of infants delivered to patients in New York City Methadone Maintenance Treatment Program, results of (Newman, Bashkow, and Calko), 233
- Bleeding, progesterone-induced uterine, and measurement of serum gonadotropin levels, clinical categorization of patients with secondary amenorrhea using (Kletzky et al.), 695
- Blood and amniotic fluid, maternal and fetal, rapid method for measurement of estradiol and hydrocortisone levels in (Sybulski and Maughan), 32
- coagulation studies, cord, in infants of high-risk pregnant women (Hathaway, Mahasandana, and Makowski), 51
- flow to human uterus during maternal metabolic acidosis (Blechner, Stenger, and Prystowsky), 789
- uterine, in term pregnant ewe, effect of exogenous dehydroepiandrosterone upon fetoplacental biosynthesis of estrogens and its effect upon (Pupkin et al.), 227
- gas measurements in kyphoscoliotic graviora and her fetus: Report of case (Hung et al.), 287 (Comm. in brief)
- levels, steroid, gonadotropins and, effects of Danazol on, in normal and anovulatory women (Andrews and Wentz), 817
- maternal and umbilical cord, plasma renin activity in, during parturition (Soveri, Fyhrquist, and Widholm), 559
- or meconium, effects of, on determination of amniotic fluid lecithin/sphingomyelin ratio (Buhi and Spellacy), 321
- pressure in puerperium, effect of plasma retransfusion on (Pirani and MacGillivray), 221
- Books received, 1126
- Breakage studies, chromosome, in lymphocytes from normal women, pregnant women, and women taking oral contraceptives (Littlefield et al.), 976
- Breast cancer, androgens in, III. Breast cancer recurrences years after mastectomy and increased androgenic activity (Grattarola, Secreto, and Recchione), 169
- Breech delivery (deliveries), term, six-year prospective study of, utilizing Zatuchni-Andros Prognostic Scoring Index (Bird and McElin), 551
- twin, at term with hyperextension of second fetus: Case report (Levy and Hall), 1116 (Comm. in brief)
- Bupivacaine, lumbar epidural analgesia with, in labor (Belfrage et al.), 360
- Burkitt's lymphoma: Case report (Hunter), 280 (Comm. in brief)

C

- Calcitonin, immunoreactive, in mother, neonate, child, and adult (Samaan, Anderson, and Adam-Mayne), 622
- Calcium metabolism in pregnancy: Review (Pitkin), 724 (Current developments)
- Cancer(s), breast, androgens in, III. Breast cancer recurrences years after mastectomy and increased androgenic activity (Grattarola, Secreto, and Recchione), 169
- gynecologic, variations of carcinoembryonic antigen level in plasma of patients with, during therapy (Barrelet and Mach), 164
- invasive, of cervix, surgical management of, in pregnancy (Thompson et al.), 845
- ovarian, histologic and nuclear grading and stromal reactions as indices for prognosis in (Barber et al.), 795
- Capillary basal laminae, fetal, of "normal" human term placentas, electron microscopic study of (Martinek, Gallagher, and Essig), 17
- Carcinoembryonic antigen level, variations of, in plasma of patients with gynecologic cancers during therapy (Barrelet and Mach), 164
- in patients with gynecologic malignancies (DiSaia et al.), 159

- Carcinoma, cervical, significance of cervicovaginal cytology after radiation therapy for (McLennan and McLennan), 96
- of cervix, squamous cell, cellular hypersensitivity in patients with (Chen, Koffler, and Cohen), 91
- endometrial, hysteroscopic diagnosis of (Sugimoto), 105
- vulvar basal cell, with metastasis: Case report (Jimenez, Fenoglio, and Richart), 285 (Comm. in brief)
- Carcinosarcoma (homologous mixed Müllerian tumors) confined to endometrial polyps (Kahner, Ferenczy, and Richart), 278 (Comm. in brief)
- Cardiovascular hemodynamics of fetal lamb, effects of long-term administration of ^3H -digoxin to pregnant ewe upon (Hernandez et al.), 1100
- Catheter, trocar, further experience with suprapubic drainage by (Ingram), 885
- Caucasian newborn infants, Japanese and, comparison of: Ethnic differences in neonatal jaundice (Horiguchi and Bauer), 71
- Cauterization, hysteroscopic, permanent sterilization by (Cibils), 513
- Cell carcinoma of cervix, squamous, cellular hypersensitivity in patients with (Chen, Koffler, and Cohen), 91
- vulvar basal, with metastasis: Case report (Jimenez, Fenoglio, and Richart), 285 (Comm. in brief)
- interstitial, -stimulating hormone concentrations, urinary testosterone or estrogen excretion levels and, correlation between, in normal postmenopausal women (Grattarola, Secreto, and Recchione), 380
- line, established endometrial, failure of estrogen and progesterone to affect protein synthesis by (Shapiro, Van Der Schouw, and Hagerman), 570 (Comm. in brief)
- Cellular hypersensitivity in patients with squamous cell carcinoma of cervix (Chen, Koffler, and Cohen), 91
- Cervical carcinoma, significance of cervicovaginal cytology after radiation therapy for (McLennan and McLennan), 96
- epithelium (epithelia), human, benign and neoplastic, in vitro studies on (Wilbanks), 771
- vaginal and, late effects in, after injections of diethylstilbestrol into neonatal mice (Forsberg), 101
- mucus, significance of timing for postcoital evaluation of (Tredwav et al.), 387
- neoplasia, angiogenesis of (Stafl and Mattingly), 845
- Cervicovaginal cytology after radiation therapy for cervical carcinoma, significance of (McLennan and McLennan), 96
- Cervix, invasive cancer of, surgical management of, in pregnancy (Thompson et al.), 845
- minimal deviation adenocarcinoma ("adenoma malignum") of: Reappraisal (Silverberg and Hurt), 971
- squamous cell carcinoma of, cellular hypersensitivity in patients with (Chen, Koffler, and Cohen), 91
- uterine, congenital absence of (Farber and Marchant), 414
- Cesarean hysterectomy, prophylactic internal iliac artery ligation at (Pelosi, Langer, and Hung), 394
- section prevents placenta-to-infant transfusion despite delayed cord clamping (Kleinberg, Dong, and Phibbs), 66
- Challenge test, oxytocin, in management of high-risk pregnancies (Gaziano, Hill, and Freeman), 947
- use of, for antepartum clinical evaluation of uteroplacental respiratory function (Freeman), 481 (Clinical opinion)
- Chemotherapy in gestational trophoblastic neoplasm, monitor of, by radioimmunoassay of β -subunit of human chorionic gonadotropin (Jones, Lewis, and Lehr), 669
- Child health effects, some maternal and, in Romania: Restricting legal abortion (Wright), 246
- Childbirth experience, Lamaze, hypnotic susceptibility and (Samko and Schoenfeld), 631
- Choriocarcinoma, twin pregnancy, and hydatidiform mole, serum α -fetoprotein in (Ishiguro), 539
- Chorionic gonadotropin, human, β -subunit of, monitor of chemotherapy in gestational trophoblastic neoplasm by radioimmunoassay of (Jones, Lewis, and Lehr), 669
- changes in ratio between serum and "specific" levels of, in different trimesters of pregnancy (Dattatreya Murty et al.), 300
- preparations, human, effects of, on complement in vitro (Loke and Pepys), 37
- serum human, and progesterone patterns in last trimester of pregnancy: Relationship to fetal sex (Boroditsky et al.), 238
- Chromosome breakage studies in lymphocytes from normal women, pregnant women, and women taking oral contraceptives (Littlefield et al.), 976
- Circulating gonadotropins, estrogens, and androgens in polycystic ovarian disease (DeVane et al.), 496
- vasopressinase of pregnancy: Species comparison with radioimmunoassay (Rosenbloom, Sack, and Fisher), 316
- Circulation, human maternal and fetal, gonadotropic hormones and their subunits in, at delivery (Hagen and McNeilly), 926
- Clamping, delayed cord, cesarean section prevents placenta-to-infant transfusion despite (Kleinberg, Dong, and Phibbs), 66
- Classic pages, 132, 277, 427-428, 563, 723, 874, 1007, 1114
- Clinic, family planning, gonorrhea detection in: Cost-benefit analysis of 2,000 triplicate cultures (Keith, Moss, and Berger), 399
- Clinical opinion, 153-158, 481-489, 1021-1023
- Coagulation, disseminated intravascular, hydatidiform mole and (Egley, Simon, and Haddox), 1122 (Comm. in brief)
- mechanism in labor at term induced with prostaglandin $\text{F}_{2\alpha}$ (Glueck and Barden), 213
- studies, cord blood, in infants of high-risk pregnant women (Hathaway, Mahasandana, and Makowski), 51
- Collision, vehicular, incorrectly used seat belt associated with uterine rupture following (Matthews), 1115 (Comm. in brief)
- Colposcopic evaluation of abnormal Papanicolaou test in pregnancy (DePetrillo et al.), 441
- Communications in brief, 278-290, 564-574, 1115-1123
- printed (Clayton), 744
- Complement, effects of human chorionic gonadotropin preparations on, in vitro (Loke and Pepys), 37
- Complicated by intrapartum fetal asphyxia, clinical characteristics of pregnancies (Low et al.), 452
- by pre-eclampsia, spontaneous lymphocyte transformation in pregnancies (Gaugas, Jones, and Curzen), 542
- pregnancies, normal and, amniotic fluid phospholipid analysis in (Duhring and Thompson), 218
- Complication(s) caused by difficult removal of laminaria tents (Gusdon and May), 286 (Comm. in brief)
- of pregnancy with intrauterine contraceptive device in situ (Dreishpoon), 412
- primary, of adolescence, congenital nongonitrous hypothyroidism with menorrhagia as (Santana and Gardner), 289 (Comm. in brief)
- Compression of umbilical cord, myocardial conduction defects in association with (Yeh et al.), 951
- Computer monitoring of fetal heart rate and uterine pressure (Crawford), 342
- Computerized aid to Ball pelvimetry (Klapholz), 1067
- Concentration(s), amniotic fluid lecithin, risk of respiratory distress syndrome as determined by (Nelson), 753
- interstitial cell-stimulating hormone, urinary testosterone or estrogen excretion levels and, correlation between, in normal postmenopausal women (Grattarola, Secreto, and Recchione), 380
- plasma deoxyribonucleic acid, of women in labor and umbilical cords (Kamm and Smith), 29
- studies, sodium, volume and, in 300 saline-induced abortions (Kerenyi and Muzsnai), 590
- Conduction defects, myocardial, in association with compression of umbilical cord (Yeh et al.), 951
- Congenital absence of uterine cervix (Farber and Marchant), 414
- adrenal hyperplasia caused by 11β -hydroxylase deficiency with onset of symptoms after one spontaneous pregnancy (Toaff, Toaff, and Chayen), 202
- nongonitrous hypothyroidism with menorrhagia as primary complication of adolescence (Santana and Gardner), 289 (Comm. in brief)
- Consolidation, regionalization and, of obstetric-gynecologic services, conceptual model for (Russell, Gardiner, and Nichols), 755
- Contraceptive device(s), hormone-releasing silicone-rubber intrauterine (Doyle), 405
- intrauterine, pregnancy in presence of, and amniotic fluid embolism: Possible association (Thomsen), 279 (Comm. in brief)
- in situ, complications of pregnancy with (Dreishpoon), 412

- Contraceptive device(s)—Cont'd
 progesterone-releasing intrauterine, clinical study of (Brenner, Cooper, and Mishell), 704
 oral, and vitamins: Review (Larsson-Cohn), 84
 women taking, normal women, and pregnant women, chromosome breakage studies in lymphocytes from (Littlefield et al.), 976
 pills, oral, estrogen potency of (Chihai, Peppler, and Dickey), 75
Contractile activity, spontaneous, of isolated human uterine arteries in vitro, investigations into (Czekanowski), 718
Contractility, uterine, induced by desamino-oxytocin, latent period, time to reach maximum effect, and disappearance of (Tobías), 337
Copper, intrauterine, effect of, on nucleic acid, polysome pattern, and glycoprotein composition of human endometrium (Hicks et al.), 981
Cord(s) blood coagulation studies in infants of high-risk pregnant women (Hathaway, Mahasandana, and Makowski), 51
 maternal and umbilical, plasma renin activity in, during parturition (Soveri, Fyhrquist, and Widholm), 559
 clamping, delayed, cesarean section prevents placenta-to-infant transfusion despite (Kleinberg, Dong, and Phibbs), 66
 umbilical, myocardial conduction defects in association with compression of (Yeh et al.), 951
 women in labor and, plasma deoxyribonucleic acid concentrations of (Kamm and Smith), 29
Correspondence, 291-292, 575-582, 1124-1125
Cortisol and ACTH, on regulation of fetal and maternal 16 α -hydroxydehydroepiandrosterone and its sulfate by, in human pregnancy at term (Simmer, Frankland, and Greipel), 646
Criminal abortion, effect of legalized abortion on morbidity resulting from (Kahan, Baker, and Freeman), 114
Cryptozoospermia, azoospermia or, sperm-agglutinating antibodies and testicular morphology in fifty-nine men with (Friberg and Kjessler), 987
Cultures, 2,000 triplicate, cost-benefit analysis of: Gonorrhea detection in family planning clinic (Keith, Moss, and Berger), 399
Current developments, 133-147, 429-438, 724-737, 1008-1019
 investigation, 127-131, 273-276, 1003-1007, 1103-1113
Curriculum, obstetric and gynecologic medical school, educational methodology in: Comparison of self-instructional with traditional methods (Munsick), 900
Cycle, human menstrual, perturbations of, by oxymethalone (Cox et al.), 121
 normal menstrual, log normal distribution of gonadotropins and ovarian steroid values in (Kletzky et al.), 688
Cyclic gonadotropin secretion, inhibition of, by endogenous human prolactin (Tyson et al.), 375
Cystadenofibroma, ovarian: Consideration of role of estrogen in its pathogenesis (Papadaki and Beilby), 501
Cytology, cervicovaginal, after radiation therapy for cervical carcinoma, significance of (McLennan and McLennan), 96
- D
- Dalkon Shield in private practice: Disappointment (Shirley), 564 (Comm. in brief)
Danazol, effects of, on gonadotropins and steroid blood levels in normal and anovulatory women (Andrews and Wentz), 817
 treatment of endometriosis with (Ansbacher), 283
Death(s), perinatal, effectiveness of human placental lactogen measurements as adjunct in decreasing (Spellacy, Buhl, and Birk), 835
Defect(s), myocardial conduction, in association with compression of umbilical cord (Yeh et al.), 951
 neural tube, prenatal detection of, present status of (Chaube and Swinyard), 429 (Current developments)
Dehydroepiandrosterone, exogenous, effect of, upon fetoplacental biosynthesis of estrogens and its effect upon uterine blood flow in term pregnant ewe (Pupkin et al.), 227
Dehydrogenase activity, serum lactate, in patients with trophoblastic neoplasms (Sekiya et al.), 1119 (Comm. in brief)
 lactate, alkaline phosphatase, phosphoglucose isomerase, phosphoglucomutase, and hexokinase: Enzymes of normal and malignant trophoblast (Edlow et al.), 674

- Deladumone OB, evaluation of, in suppression of postpartum lactation (Louviere and Upton), 641
Delivered to patients in New York City Methadone Maintenance Treatment Program, results of 313 consecutive live births of infants (Newman, Bashkow, and Calko), 233
Delivery (deliveries), term breech, six-year prospective study of, utilizing Zatzuchi-Andros Prognostic Scoring Index (Bird and McElin), 551
 twin breech, at term with hyperextension of second fetus: Case report (Levy and Hall), 1116 (Comm. in brief)
Deoxyribonucleic acid concentrations, plasma, of women in labor and umbilical cords (Kamm and Smith), 29
Desamino-oxytocin, latent period, time to reach maximum effect, and disappearance of uterine contractility induced by (Tobías), 337
Deviation adenocarcinoma, minimal ("adenoma malignum"), of cervix: Reappraisal (Silverberg and Hurt), 971
Device(s) hormone-releasing silicone-rubber intrauterine contraceptive (Doyle), 405
 intrauterine contraceptive, pregnancy in presence of, and amniotic fluid embolism: Possible association (Thomson), 279 (Comm. in brief)
 in situ, complications of pregnancy with (Dreishpoon), 412
 progesterone-releasing intrauterine contraceptive, clinical study of (Brenner, Cooper, and Mishell), 704
Dextran 70, thirty-two per cent, effect of, on peritoneal adhesion formation (Neuwirth and Khalaf), 420
Diagnosis, hysteroscopic, of endometrial carcinoma (Sugimoto), 105
 prenatal genetic, new clinical tool for—"Fetoscope" (Benzie and Doran), 460
 of osteogenesis imperfecta congenita (Heller, Winn, and Heller), 572 (Comm. in brief)
Diagnostic aid, spectral analysis as, in management of high-risk pregnancy (Chess et al.), 471
Diameter growth standards, sonar biparietal, in rhesus monkey (Sabagha, Turner, and Chez), 371
Diazepam, some effects of, on pregnancy in Balb/C mouse (Stenchever and Parks), 765
Diethylstilbestrol, late effects in vaginal and cervical epithelia after injections of, into neonatal mice (Forsberg), 101
 postcoital, ectopic pregnancy after (Smythe and Underwood), 284 (Comm. in brief)
Digoxin, ³H-, effects of long-term administration of, to pregnant ewe upon cardiovascular hemodynamics of fetal lamb, (Hernandez et al.), 1100
Disease, acute pelvic inflammatory, effect of, on fertility (Weström), 707
 hemolytic, of neonate secondary to anti-Fy^a (Weinstein and Taylor), 643
 polycystic ovarian, circulating gonadotropins, estrogens, and androgens in (DeVane et al.), 496
 typical and atypical polycystic ovary, pituitary gonadotropin responses to synthetic luteinizing hormone-releasing hormone in patients with (Patton et al.), 382
Disseminated intravascular coagulation, hydatidiform mole and (Egley, Simon, and Haddox), 1122 (Comm. in brief)
Distress, fetal respiratory, following fetography (Crosby), 958
 syndrome, respiratory, risk of, as determined by amniotic fluid lecithin concentration (Nelson), 732
Drainage, suprapubic, by trocar catheter, further experience with (Ingram), 885
Duct agenesis, Müllerian, associated with renal and skeletal abnormalities (Muechler), 567 (Comm. in brief)
Dysmenorrhea, essential, beta-receptor stimulation in (Hansen and Secher), 566 (Comm. in brief)

E

- E₂, intramuscular 15 methyl prostaglandin, efficacy of, in second-trimester abortion (Dillon et al.), 584
 oral prostaglandin, preinduction priming with (Friedman and Sachtleben), 521
 prostaglandins F_{2 α} and, levels of, in human endometrium during menstrual cycle (Singh, Baccarini, and Zuspan), 1003 (Current investigation)

- Earth, greatest show on (Hughes), 739
- Ectopic pregnancy after postcoital diethylstilbestrol (Smythe and Underwood), 284 (Comm. in brief)
- Editorial, 1, 583
- Education, continuing, of obstetricians and gynecologists in fertility management (King et al.), 829
- Educational methodology in obstetric and gynecologic medical school curriculum: Comparison of self-instructional with traditional methods (Munsick), 900
- Elderly primigravida (Morrison), 465
- Electrocoagulation, tubal, under hysteroscopic control (three hundred and fifty cases) (Quiñones G., Alvarado D., and Ley Ch.), 1111 (Current investigation)
- Electrode(s), spiral fetal scalp, hazard associated with use of (Thomas and Blackwell), 1118 (Comm. in brief)
- Electromicrosurgery and salpingostomy: Long-term results (Swolin), 418
- Electron microscopic study of fetal capillary basal laminae of "normal" human term placentas (Martineck, Gallagher, and Essig), 17
- Embolism, amniotic fluid, pregnancy in presence of intrauterine contraceptive device and: Possible association (Thomsen), 279 (Comm. in brief)
- Embryo implantation, failure of stressful stimuli to inhibit, in rat (Castro-Vázquez et al.), 968
- Endocrine influences on pulmonary maturation and lecithin/sphingomyelin ratio in fetal baboon (Kling and Kotas), 664
- Endogenous human prolactin, inhibition of cyclic gonadotropin secretion by (Tyson et al.), 375
- Endometrial carcinoma, hysteroscopic diagnosis of (Sugimoto), 105
- cell line, established, failure of estrogen and progesterone to affect protein synthesis by (Shapiro, Van Der Schouw, and Hagerman), 570 (Comm. in brief)
- morphology in women exposed to uterine systems releasing progesterone (Martínez-Manautou et al.), 175
- polyps, homologous mixed Müllerian tumors (carcinosarcoma) confined to (Kahner, Ferenczy, and Richart), 278 (Comm. in brief)
- Endometriosis of appendix (Uohara and Kobara), 423
- treatment of, with Danazol (Ansbacher), 283
- Endometritis, puerperal: Prospective microbiologic study (Gibbs et al.), 919
- Endometrium, human, effect of intrauterine copper on nucleic acids, polysome pattern, and glycoprotein composition of (Hicks et al.), 981
- Enzyme(s) of glucose and fatty acid metabolism in early and term human placenta (Diamant et al.), 58
- of normal and malignant trophoblast: Phosphoglucose isomerase, phosphoglucomutase, hexokinase, lactate dehydrogenase, and alkaline phosphatase (Edlow et al.), 674
- Epidural analgesia, lumbar, with bupivacaine in labor (Belfrage et al.), 360
- Epithelium (epithelia), human cervical, benign and neoplastic, in vitro studies on (Wilbanks), 771
- vaginal and cervical, late effects in, after injections of diethylstilbestrol into neonatal mice (Forsberg), 101
- Estradiol and hydrocortisone levels in maternal and fetal blood and amniotic fluid, rapid method for measurement of (Sybulski and Maughan), 32
- Estrogen(s), androgens, and gonadotropins, circulating, in polycystic ovarian disease (DeVane et al.), 496
- consideration of role of, in its pathogenesis: Ovarian cystadenofibroma (Papadakis and Beilby), 501
- effect of exogenous dehydroepiandrosterone upon fetoplacental biosynthesis of, and its effect upon uterine blood flow in term pregnant ewe (Pupkin et al.), 227
- excretion levels, urinary testosterone or, and interstitial cell-stimulating hormone concentrations, correlation between, in normal postmenopausal women (Grattarola, Secreto, and Recchione), 380
- and metabolism of progesterone in vivo (Billiar, Jassani, and Little), 877
- potency of oral contraceptive pills (Chihai, Peppler, and Dickey), 75
- and progesterone, failure of, to affect protein synthesis by established endometrial cell line (Shapiro, Van Der Schouw, and Hagerman), 570 (Comm. in brief)
- receptors in rabbit uterus, effect of progesterone on (Martin et al.), 180
- Ethnic differences in neonatal jaundice: Comparison of Japanese and Caucasian newborn infants (Horiguchi and Bauer), 71
- Examination, pelvic, teaching, to second-year medical students using programmed patients (Johnson et al.), 714
- Excretion, gonadotropin, in response to audiostimulation of human subjects (Beardwood, Mundell, and Utian), 682
- levels, urinary testosterone or estrogen, and interstitial cell-stimulating hormone concentrations, correlation between, in normal postmenopausal women (Grattarola, Secreto, and Recchione), 380
- Exenterative operations: Experience with 198 patients (Symmonds, Pratt, and Webb), 907
- Exogenous dehydroepiandrosterone, effect of, upon fetoplacental biosynthesis of estrogens and its effect upon uterine blood flow in term pregnant ewe (Pupkin et al.), 227
- Exogenously administered human gonadotropins, ovarian response to, during postpartum period (Nakano et al.), 187
- Extraction, menstrual (Atienza et al.), 490
- Extraovular prostaglandin $F_{2\alpha}$ for early midtrimester abortion (Shapiro), 333

F

- $F_{2\alpha}$ and E_2 , prostaglandins, levels of, in human endometrium during menstrual cycle (Singh, Baccarini, and Zupan), 1003 (Current investigation)
- extraovular prostaglandin, for early midtrimester abortion (Shapiro), 333
- 15(S)-15-methyl-prostaglandin, midtrimester abortion induced by serial intramuscular injections of (Lauersen and Wilson), 273 (Current investigation)
- preliminary experience with (Greer, Droegemueller, and Engel), 524
- prostaglandin, coagulation mechanism in labor at term induced with (Glueck and Barden), 213
- and hypertonic saline, effect of, on placental function during midtrimester abortion (Jayaraman et al.), 528
- Factor(s), macrophage migration inhibitory, in female sterility (Mettler and Schirwani), 117
- TSH- and LH-releasing, in vitro biosynthesis of, by human placenta (Gibbons, Mitnick, and Chieffo), 127 (Current investigation)
- Fallopian tube, human, functional analysis of myogenic control systems of (Daniel et al.), 1046
- structural analysis of myogenic control systems of (Daniel, Posey, and Paton), 1054
- Family planning clinic, gonorrhea detection in: Cost-benefit analysis of 2,000 triplicate cultures (Keith, Moss, and Berger), 399
- Fatty acid(s), amniotic fluid phospholipids and, in normal pregnancies (Schirar et al.), 653
- metabolism, glucose and, enzymes of, in early and term human placenta (Diamant et al.), 58
- Fertility control in large-scale vaccination program for postpubertal women: Rubella vaccination (Halstead et al.), 1089
- effect of acute pelvic inflammatory disease on (Weström), 707
- management, continuing education of obstetricians and gynecologists in (King et al.), 829
- Fetal adrenal glands, possible role of, in etiology of postmaturity (Nwosu et al.), 366
- asphyxia, incidence of, in six hundred high-risk monitored pregnancies (Low et al.), 456
- intrapartum, acid-base and biochemical characteristics of (Low et al.), 446
- clinical characteristics of pregnancies complicated by (Low et al.), 452
- baboon, endocrine influences on pulmonary maturation and lecithin/sphingomyelin ratio in (Kling and Kotas), 664
- blood and amniotic fluid, maternal and, rapid method for measurement of estradiol and hydrocortisone levels in (Sybulski and Maughan), 32
- capillary basal laminae of "normal" human term placentas, electron microscopic study of (Martineck, Gallagher, and Essig), 17
- circulation, human maternal and, gonadotropic hormones and their subunits in, at delivery (Hagen and McNeilly), 926
- deterioration, increased uterine activity and, during maternal hyperthermia (Morishima et al.), 531
- growth, antenatal, from nineteenth week (Levi and Erbsman), 262

Fetal—Cont'd

- heart rate, maternal heart rate, and age of pregnancy, correlation of (Eisenberg de Smoler, Smith, and Karchmer), 62
- and uterine pressure, computer monitoring of (Crawford), 342
- lamb, effects of long-term administration of ³H-digoxin to pregnant ewe upon cardiovascular hemodynamics of (Hernandez et al.), 1100
- livers of 15 to 19 weeks' gestation, propionate metabolism in (Morrow et al.), 269
- loss, induced midtrimester abortion and, infections with mycoplasma and bacteria in (Sompolsky et al.), 610
- lung maturity, amniotic fluid phospholipids and I. Assessment of various methods of determining lecithin and sphingomyelin (Jackson, Anderson, and Held), 1095
- maternal/, bilirubin transfer (Hibbard), 282 (Comm. in brief)
- plasma glucose relationships in late monkey pregnancy (Chez et al.), 938
- 16 α -hydroxydehydroepiandrosterone and its sulfate, on regulation of, by cortisol and ACTH in human pregnancy at term (Simmer, Frankland, and Greipel), 646
- maturity: Biochemical analyses of amniotic fluid (Myers, Harrell, and Hill), 961
- outcome in threatened abortion, prediction of, by maternal serum placental lactogen and alpha fetoprotein (Garoff and Seppälä), 257
- plasma levels, maternal and, of pyridoxal phosphate at term: Adequacy of vitamin B₆ supplementation during pregnancy (Cleary, Lumeng, and Li), 25
- pulmonary maturity, prospective evaluation of lecithin/sphingomyelin ratio and rapid surfactant test in relation to (Keniston et al.), 324
- respiratory distress following fetography (Crosby), 958
- scalp electrodes, spiral, hazard associated with use of (Thomas and Blackwell), 1118 (Comm. in brief)
- sex, relationship to: Serum human chorionic gonadotropin and progesterone patterns in last trimester of pregnancy (Boroditsky et al.), 238
- Fetography, fetal respiratory distress following (Crosby), 958
- Fetoplacental biosynthesis of estrogens, effect of exogenous dehydroepiandrosterone upon, and its effect upon uterine blood flow in term pregnant ewe (Pupkin et al.), 227
- Fetoprotein, alpha, maternal serum placental lactogen and, prediction of fetal outcome in threatened abortion by (Garoff and Seppälä), 257
- serum, in hydatidiform mole, choriocarcinoma, and twin pregnancy (Ishiguro), 539
- "Fetoscope"—New clinical tool for prenatal genetic diagnosis (Benzie and Doran), 460
- Fetus, her, kyphoscoliotic gravis and, blood gas measurements in: Report of case (Hung et al.), 287 (Comm. in brief)
- second, twin breech delivery at term with hyperextension of: Case report (Levy and Hall), 1116 (Comm. in brief)
- Fistula, ovarian arteriovenous (Weed et al.), 569 (Comm. in brief)
- Flow, blood, to human uterus during maternal metabolic acidosis (Blechner, Stenger, and Prystowsky), 789
- uterine blood, in term pregnant ewe, effect of exogenous dehydroepiandrosterone upon fetoplacental biosynthesis of estrogens and its effect upon (Pupkin et al.), 227
- Fluid, amniotic, biochemical analyses of: Fetal maturity (Myers, Harrell, and Hill), 961
- maternal and fetal blood and, rapid method for measurement of estradiol and hydrocortisone levels in (Sybulski and Maughan), 32
- embolism, amniotic, pregnancy in presence of intrauterine contraceptive device and: Possible association (Thomsen), 279 (Comm. in brief)
- lecithin concentration, amniotic, risk of respiratory distress syndrome as determined by (Nelson), 753
- /sphingomyelin ratio, amniotic, effects of blood or meconium on determination of (Bui and Spellacy), 321
- phospholipids, amniotic, and fatty acids in normal pregnancies (Schirar et al.), 653
- and fetal lung maturity. I. Assessment of various methods of determining lecithin and sphingomyelin (Jackson, Anderson, and Held), 1095
- analysis, amniotic, in normal and complicated pregnancies (Duhning and Thompson), 218
- Fy^a, anti-, hemolytic disease of neonate secondary to (Weinstein and Taylor), 643
- G
- Gas measurements, blood, in kyphoscoliotic gravis and her fetus: Report of case (Hung et al.), 287 (Comm. in brief)
- Genetic diagnosis, prenatal, new clinical tool for—"Fetoscope" (Benzie and Doran), 460
- Gestation, early human, serum prolactin patterns in (Barberia et al.), 1107 (Current investigation)
- 15 to 19 weeks', propionate metabolism in fetal livers of (Morrow et al.), 269
- Gestational age, small-for-, infants, placental pathology of (Altshuler, Russell, and Ermocilla), 351
- trophoblastic neoplasm, monitor of chemotherapy in, by radioimmunoassay of β -subunit of human chorionic gonadotropin (Jones, Lewis, and Lehr), 669
- Gland(s), fetal adrenal, possible role of, in etiology of postmaturity (Nwosu et al.), 366
- Glucose and fatty acid metabolism, enzymes of, in early and term human placenta (Diamant et al.), 58
- relationships, maternal-fetal plasma, in late monkey pregnancy (Chez et al.), 938
- Glycoprotein composition, nucleic acids, and polysome pattern of human endometrium, effect of intrauterine copper on (Hicks et al.), 981
- Goitrous (non-) hypothyroidism, congenital, with menorrhagia as primary complication of adolescence (Santana and Gardner), 289 (Comm. in brief)
- Gonadotropic hormones and their subunits in human maternal and fetal circulation at delivery (Hagen and McNeilly), 926
- Gonadotropin(s), estrogens, and androgens, circulating, in polycystic ovarian disease (DeVane et al.), 496
- excretion in response to audiostimulation of human subjects (Beardwood, Mundell, and Utian), 682
- human chorionic, β -subunit of, monitor of chemotherapy in gestational trophoblastic neoplasm by radioimmunoassay of (Jones, Lewis, and Lehr), 669
- changes in ratio between serum and "specific" levels of, in different trimesters of pregnancy (Dattatrayamurty et al.), 300
- exogenously administered, ovarian response to, during postpartum period (Nakano et al.), 187
- menopausal, -induced human pregnancies, normal and, serum androstenedione levels during (Thornycroft et al.), 306
- levels, serum, measurement of, progesterone-induced uterine bleeding and, clinical categorization of patients with secondary amenorrhea using (Kletzky et al.), 695
- and ovarian steroid values, log normal distribution of, in normal menstrual cycle (Kletzky et al.), 688
- preparations, human chorionic, effects of, on complement in vitro (Loke and Pepys), 37
- responses, pituitary, to synthetic luteinizing hormone-releasing hormone in patients with typical and atypical polycystic ovary disease (Patton et al.), 382
- secretion, cyclic, inhibition of, by endogenous human prolactin (Tyson et al.), 375
- serum human chorionic, and progesterone patterns in last trimester of pregnancy: Relationship to fetal sex (Boroditsky et al.), 238
- and steroid blood levels, effects of Danazol on, in normal and anovulatory women (Andrews and Wentz), 817
- Gonococcal amnionitis, intrapartum (Rothbard, Gregory, and Salerno), 565 (Comm. in brief)
- Gonorrhea detection in family planning clinic: Cost-benefit analysis of 2,000 triplicate cultures (Keith, Moss, and Berger), 399
- Grading, histologic and nuclear, and stromal reactions as indices for prognosis in ovarian cancer (Barber et al.), 795
- Gravida, kyphoscoliotic, and her fetus, blood gas measurements in: Report of case (Hung et al.), 287 (Comm. in brief)
- Growth, antenatal fetal, from nineteenth week (Levi and Erbsman), 262
- standards, sonar biparietal diameter, in rhesus monkey (Sabbagha, Turner, and Chez), 371

- Gynecologic cancers, variations of carcinoembryonic antigen level in plasma of patients with, during therapy (Barrelet and Mach), 164
- importance, aberrant hormone activity by (Shane and Naftolin), 133 (Current developments)
- malignancies, carcinoembryonic antigen in patients with (DiSaia et al.), 159
- medical school curriculum, obstetric and, educational methodology in: Comparison of self-instructional with traditional methods (Munsick), 900
- obstetric, service(s), bacteremia on (Ledger et al.), 205
- conceptual model for regionalization and consolidation of (Russell, Gardiner, and Nichols), 755
- Gynecologist(s), obstetrician(s) and, continuing education of, in fertility management (King et al.), 829
- is specialist or primary physician to women (Burkons and Willson), 808
- Gynecology, guidelines for antibiotic prophylaxis in (Ledger, Gee, and Lewis), 1038
- obstetrics and, training and function of women's health-care specialist, physician's assistant, or nurse practitioner in (Ostergard, Gunning, and Marshall), 1029
- H**
- ³H-Digoxin, effects of long-term administration of, to pregnant ewe upon cardiovascular hemodynamics of fetal lamb (Hernandez et al.), 1100
- Health-care specialist, women's, physician's assistant, or nurse practitioner, training and function of, in obstetrics and gynecology (Ostergard, Gunning, and Marshall), 1029
- effects, some maternal and child, in Romania: Restricting legal abortion (Wright), 246
- Heart rate, fetal, maternal heart rate, and age of pregnancy, correlation of (Eisenberg de Smoler, Smith, and Karchmer), 62
- and uterine pressure, computer monitoring of (Crawford), 342
- Hemodynamics, cardiovascular, of fetal lamb, effects of long-term administration of ³H-digoxin to pregnant ewe upon (Hernandez et al.), 1100
- Hemolytic disease of neonate secondary to anti-Fy^a (Weinstein and Taylor), 643
- Hepatic malignancy, primary, in pregnant women (Purtilo, Clark, and Williams), 41
- Hexokinase, lactate dehydrogenase, alkaline phosphatase, phosphoglucose isomerase, and phosphoglucomutase: Enzymes of normal and malignant trophoblast (Edlow et al.), 674
- High-risk monitored pregnancies, six hundred, incidence of fetal asphyxia in (Low et al.), 456
- pregnancy (pregnancies), oxytocin challenge test in management of (Gaziano, Hill, and Freeman), 947
- spectral analysis as diagnostic aid in management of (Chess et al.), 471
- pregnant women, infants of, cord blood coagulation studies in (Hathaway, Mahasandana, and Makowski), 51
- Histologic and nuclear grading and stromal reactions as indices for prognosis in ovarian cancer (Barber et al.), 795
- Homologous mixed Müllerian tumors (carcinosarcoma) confined to endometrial polyps (Kahner, Ferenczy, and Richart), 278 (Comm. in brief)
- Hormone(s) (ACTH), adrenocorticotrophic, cortisol and, on regulation of fetal and maternal 16 α -hydroxydehydroepiandrosterone and its sulfate by, in human pregnancy at term (Simmer, Frankland, and Greipel), 646
- activity, aberrant, by tumors of gynecologic importance (Shane and Naftolin), 133 (Current developments)
- concentrations, interstitial cell-stimulating, urinary testosterone or estrogen excretion levels and, correlation between, in normal postmenopausal women (Grattarola, Secreto, and Recchione), 380
- gonadotropic, and their subunits in human maternal and fetal circulation at delivery (Hagen and McNeilly), 926
- in human pregnancy. IV. Plasma progesterone (Tulchinsky and Okada), 293
- Hormone(s)—Cont'd
- luteinizing (LH), -releasing factors, TSH- and, in vitro biosynthesis of, by human placenta (Gibbons, Mitnick, and Chieffo), 127 (Current investigation)
- hormone, synthetic, pituitary gonadotropin responses to, in patients with typical and atypical polycystic ovary disease (Patton et al.), 382
- releasing silicone-rubber intrauterine contraceptive devices (Doyle), 405
- serum luteinizing, use of, in clinical management of short-term amenorrhea (Bloch), 1021 (Clinical opinion)
- HPV-77, DE5 rubella virus vaccine, late seroconversion following (Wilkins), 998
- Human chorionic gonadotropin, β -subunit of, monitor of chemotherapy in gestational trophoblastic neoplasm by radioimmunoassay of (Jones, Lewis, and Lehr), 669
- changes in ratio between serum and "specific" levels of, in different trimesters of pregnancy (Dattatreyamurthy et al.), 300
- preparations, effects of, on complement in vitro (Loke and Pepys), 37
- serum, and progesterone patterns in last trimester of pregnancy: Relationship to fetal sex (Boroditsky et al.), 238
- gonadotropins, exogenously administered, ovarian response to, during postpartum period (Nakano et al.), 187
- menopausal gonadotropin-induced human pregnancies, normal and, serum androstenedione levels during (Thorncroft et al.), 306
- placental lactogen measurements, effectiveness of, as adjunct in decreasing perinatal deaths (Spellacy, Buhí, and Birk), 835
- prolactin, endogenous, inhibition of cyclic gonadotropin secretion by (Tyson et al.), 375
- Hydatidiform mole, choriocarcinoma, and twin pregnancy, serum α -fetoprotein in (Ishiguro), 539
- and disseminated intravascular coagulation (Egley, Simon, and Haddox), 1122 (Comm. in brief)
- Hydrocortisone levels, estradiol and, in maternal and fetal blood and amniotic fluid, rapid method for measurement of (Sybulski and Maughan), 32
- Hydrothorax, acute, as only symptom of ovarian hyperstimulation syndrome (Jewelewicz and Vande Wiele), 1121 (Comm. in brief)
- Hydroxydehydroepiandrosterone, 16 α -, and its sulfate, maternal and fetal, on regulation of, by cortisol and ACTH in human pregnancy at term (Simmer, Frankland, and Greipel), 646
- Hydroxylase, 11 β -, deficiency, congenital adrenal hyperplasia caused by, with onset of symptoms after one spontaneous pregnancy (Toaff, Toaff, and Chayen), 202
- Hyperextension of second fetus, twin breech delivery at term with: Case report (Levy and Hall), 1116 (Comm. in brief)
- Hyperplasia, congenital adrenal, caused by 11 β -hydroxylase deficiency with onset of symptoms after one spontaneous pregnancy (Toaff, Toaff, and Chayen), 202
- Hypersensitivity, cellular, in patients with squamous cell carcinoma of cervix (Chen, Koffler, and Cohen), 91
- Hyperstimulation syndrome, ovarian, acute hydrothorax as only symptom of (Jewelewicz and Vande Wiele), 1121 (Comm. in brief)
- Hypertension, renal, and pregnancy in sheep. I. Behavior of uteroplacental vasomotor tone during mild hypertension (Brinkman, Nuwayhid, and Asali), 931
- Hypertensive disorders of pregnancy, pyridoxal phosphate and (Brophy and Siiteri), 1075
- Hyperthermia, maternal, increased uterine activity and fetal deterioration during (Morishima et al.), 531
- Hypertonic saline, mode of action of, in inducing abortion (Llewellyn-Jones, Clarke, and Shutt), 568 (Comm. in brief)
- prostaglandin F_{2a} and, effect of, on placental function during midtrimester abortion (Jayaraman et al.), 528
- Hypnotic susceptibility and Lamaze childbirth experience (Samko and Schoenfeld), 631
- Hypoglycemia, insulin, failure of, to produce rise in serum prolactin (Cohen and Gala), 1103 (Current investigation)
- Hypogonadism, anosmia and, with ovarian mosaicism (Jones et al.), 991

- Hypothyroidism, congenital nongoitrous, with menorrhagia as primary complication of adolescence (Santana and Gardner), 289 (Comm. in brief)
- Hypoxia, intrauterine, effect of, on child surviving to 4 years (Niswander, Gordon, and Drage), 892
- Hysterectomy, acute effect of, on ovarian function (Stone, Dickey, and Mickal), 193
- cesarean, prophylactic internal iliac artery ligation at (Pelosi, Langer, and Hung), 394
- Hysteroscopic cauterization, permanent sterilization by (Cibils), 513
- control, tubal electrocoagulation under (three hundred and fifty cases) (Quiñones G., Alvarado D., and Ley Ch.), 1111 (Current investigation)
- diagnosis of endometrial carcinoma (Sugimoto), 103
- I
- Iliac artery ligation, prophylactic internal, at cesarean hysterectomy (Pelosi, Langer, and Hung), 394
- Immunoreactive calcitonin in mother, neonate, child, and adult (Samaan, Anderson, and Adam-Mayne), 622
- Implantation, embryo, failure of stressful stimuli to inhibit, in rat (Castro-Vázquez et al.), 968
- Induced abortion, delay in seeking: Review and theoretical analysis (Bracken and Kasl), 1008 (Current developments)
- by desamino-oxytocin, latent period, time to reach maximum effect, and disappearance of uterine contractility (Tobías), 337
- human menopausal gonadotropin-, human pregnancies, normal and, serum androstenedione levels during (Thorncroft et al.), 306
- midtrimester abortion and fetal loss, infections with mycoplasma and bacteria in (Sompolsky et al.), 610
- norlestrin-, pseudopregnancy in baboon (Klaus et al.), 545
- progesterone-, uterine bleeding and measurement of serum gonadotropin levels, clinical categorization of patients with secondary amenorrhea using (Kletzky et al.), 695
- with prostaglandin $F_{2\alpha}$, labor at term, coagulation mechanism in (Glueck and Barden), 213
- saline-, abortion(s), 300, volume and sodium concentration studies in (Kerenyi and Muznai), 590
- water intoxication associated with oxytocin administration during (Lauersen and Birnbaum), 2
- uterine activity, spontaneous and, in pregnant baboon, effect of berotec (Th 1165a) on (Lauersen, Wilson, and Fuchs), 597
- Inducing abortion, mode of action of hypertonic saline in (Llewellyn-Jones, Clarke, and Shutt), 568 (Comm. in brief)
- Induction of ovulation in infertile women with pituitary tumors (Gemzell), 311
- (pre-) priming with oral prostaglandin E_2 (Friedman and Sachtleben), 521
- Infant(s) of high-risk pregnant women, cord blood coagulation studies in (Hathaway, Mahasandana, and Makowski), 51
- Japanese and Caucasian newborn, comparison of: Ethnic differences in neonatal jaundice (Horiguchi and Bauer), 71
- placenta-to-, transfusion, cesarean section prevents, despite delayed cord clamping (Kleinberg, Dong, and Phibbs), 66
- small-for-gestational age, placental pathology of (Altschuler, Russell, and Ermocilla), 351
- 313 consecutive live births of, delivered to patients in New York City Methadone Maintenance Treatment Program, results of (Newman, Bashkow, and Calko), 233
- Infection(s) with mycoplasma and bacteria in induced midtrimester abortion and fetal loss (Sompolsky et al.), 610
- Infertile women with pituitary tumors, induction of ovulation in (Gemzell), 311
- with poorly invading spermatozoa on postcoital tests, antibodies against spermatozoa in (Wall et al.), 198
- Inflammatory disease, acute pelvic, effect of, on fertility (Weström), 707
- Inhibitory factor, macrophage migration, in female sterility (Mettler and Schirwani), 117
- Injection(s) of diethylstilbestrol into neonatal mice, late effects in vaginal and cervical epithelia after (Forsberg), 101
- serial intramuscular, of 15(S)-15-methyl-prostaglandin $F_{2\alpha}$, midtrimester abortion induced by (Lauersen and Wilson), 273 (Current investigation)

- Instillation-to-abortion time, morbidity, and oxytocin administration associated with saline instillation (Berger, Edelman, and Kerenyi), 941
- Insufficiency, pulmonary, associated with pregnancy (Futoran and Hill), 637
- Insulin hypoglycemia, failure of, to produce rise in serum prolactin (Cohen and Gala), 1103 (Current investigation)
- Internal iliac artery ligation, prophylactic, at cesarean hysterectomy (Pelosi, Langer, and Hung), 394
- Interstitial cell-stimulating hormone concentrations, urinary testosterone or estrogen excretion levels and, correlation between, in normal postmenopausal women (Grattarola, Secreto, and Recchione), 380
- Intoxication, water, associated with oxytocin administration during saline-induced abortion (Lauersen and Birnbaum), 2
- Intra-amniotic urea as midtrimester abortifacient: Clinical results and serum and urinary changes (Burnett et al.), 7
- Intramuscular 15 methyl prostaglandin E_2 , efficacy of, in second-trimester abortion (Dillon et al.), 584
- injections, serial, of 15(S)-15-methyl-prostaglandin $F_{2\alpha}$, midtrimester abortion induced by (Lauersen and Wilson), 273 (Current investigation)
- Intrapartum fetal asphyxia, acid-base and biochemical characteristics of (Low et al.), 446
- clinical characteristics of pregnancies complicated by (Low et al.), 452
- gonococcal amnionitis (Rothbard, Gregory, and Salerno), 565 (Comm. in brief)
- Intrauterine contraceptive device(s), hormone-releasing silicone-rubber (Doyle), 405
- pregnancy in presence of, and amniotic fluid embolism: Possible association (Thomsen), 279 (Comm. in brief)
- progesterone-releasing, clinical study of (Brenner, Cooper, and Mishell), 704
- in situ, complications of pregnancy with (Dreishpoon), 412
- copper, effect of, on nucleic acids, polysome pattern, and glycoprotein composition of human endometrium (Hicks et al.), 981
- hypoxia, effect of, on child surviving to 4 years (Niswander, Gordon, and Drage), 892
- Intravascular coagulation, disseminated, hydatidiform mole and (Egley, Simon, and Haddox), 1122 (Comm. in brief)
- Invasive cancer of cervix, surgical management of, in pregnancy (Thompson et al.), 845
- Isolated human uterine arteries in vitro, investigations into spontaneous contractile activity of (Czekanowski), 718
- Isolation of progesterone (Slotta), 428 (Classic pages)
- Isomerase, phosphoglucose, phosphoglucomutase, hexokinase, lactate dehydrogenase, and alkaline phosphatase: Enzymes of normal and malignant trophoblast (Edlow et al.), 674
- Items, 151-152, 439-440, 738, 875-876, 1020

J

- Japanese and Caucasian newborn infants, comparison of: Ethnic differences in neonatal jaundice (Horiguchi and Bauer), 71
- Jaundice, neonatal, ethnic differences in: Comparison of Japanese and Caucasian newborn infants (Horiguchi and Bauer), 71

K

- Kyphoscoliotic gravida and her fetus, blood gas measurements in: Report of case (Hung et al.), 287 (Comm. in brief)

L

- Labeling, affinity, steroids, synthesis and use of, for interceptive purposes (Clark, Sweet, and Warren), 864
- Labor, first stage of, effect of regional analgesia on maternal oxygen consumption during (Sangoul, Fox, and Houle), 1080
- lumbar epidural analgesia with bupivacaine in (Belfrage et al.), 360
- at term induced with prostaglandin $F_{2\alpha}$, coagulation mechanism in (Glueck and Barden), 213
- relaxing effect of terbutaline on human uterus during (Andersson et al.), 602
- women in, and umbilical cords, plasma deoxyribonucleic acid concentrations of (Kamm and Smith), 29

- Lactate dehydrogenase activity, serum, in patients with trophoblastic neoplasms (Sekiya et al.), 1119 (Comm. in brief)
- alkaline phosphatase, phosphoglucose isomerase, phosphoglucomutase, and hexokinase: Enzymes of normal and malignant trophoblast (Edlow et al.), 674
- Lactation, postpartum, evaluation of Deladumone OB in suppression of (Louvriere and Upton), 641
- Lactogen measurements, human placental, effectiveness of, as adjunct in decreasing perinatal deaths (Spellacy, Buih, and Birk), 835
- placental, and alpha fetoprotein, maternal serum, prediction of fetal outcome in threatened abortion by (Garoff and Seppälä), 257
- Lamaze childbirth experience, hypnotic susceptibility and (Samko and Schoenfeld), 631
- Lamina(s), fetal capillary basal, of "normal" human term placentas, electron microscopic study of (Martinek, Gallagher, and Essig), 17
- Laminaria tents, complications caused by difficult removal of (Gusdon and May), 286 (Comm. in brief)
- Latent period, time to reach maximum effect, and disappearance of uterine contractility induced by desamino-oxytocin (Tobías), 337
- Lecithin concentration, amniotic fluid, risk of respiratory distress syndrome as determined by (Nelson), 753
- and sphingomyelin, assessment of various methods of determining, I. Amniotic fluid phospholipids and fetal lung maturity (Jackson, Anderson, and Held), 1095
- ratio, amniotic fluid, effects of blood or meconium on determination of (Buih and Spellacy), 321
- pulmonary maturation and, in fetal baboon, endocrine influences on (Kling and Kotas), 664
- and rapid surfactant test, prospective evaluation of, in relation to fetal pulmonary maturity (Keniston et al.), 324
- Legalized abortion, effect of, on morbidity resulting from criminal abortion (Kahan, Baker, and Freeman), 114
- Lesion(s), all vulvar, should be biopsied (Goldstein and Kent), 173
- Ligation, prophylactic internal iliac artery, at cesarean hysterectomy (Pelosi, Langer, and Hung), 394
- Lincomycin, safety of, in pregnancy (Mickal and Panzer), 1071
- Liquor amnii and plasma, human, angiotensins I and II, active and inactive renin, renin substrate, renin activity, and angiotensinase in (Skinner et al.), 626
- Livers, fetal, of 15 to 19 weeks' gestation, propionate metabolism in (Morrow et al.), 269
- Lumbar epidural analgesia with bupivacaine in labor (Belfrage et al.), 360
- Lung maturity, fetal, amniotic fluid phospholipids and. I. Assessment of various methods of determining lecithin and sphingomyelin (Jackson, Anderson, and Held), 1095
- Luteinizing hormone (LH)-releasing factors, TSH- and, in vitro biosynthesis of, by human placenta (Gibbons, Mitnick, and Chieffo), 127 (Current investigation)
- hormone, synthetic, pituitary gonadotropin responses to, in patients with typical and atypical polycystic ovary disease (Patton et al.), 382
- serum, use of, in clinical management of short-term amenorrhea (Bloch), 1021 (Clinical opinion)
- Luteoma of pregnancy: Case report (Tucker, Buell, and Fisher), 282 (Comm. in brief)
- Lymphangioma, mesenteric and pancreatic, presenting as right adnexal mass (Epstein and Berman), 1117 (Comm. in brief)
- Lymphocyte(s) from normal women, pregnant women, and women taking oral contraceptives, chromosome breakage studies in (Littlefield et al.), 976
- transformation, spontaneous, in pregnancies complicated by pre-eclampsia (Gaugas, Jones, and Curzen), 542
- Lymphoma, Burkitt's: Case report (Hunter), 280 (Comm. in brief)
- M**
- Macrophage migration inhibitory factor in female sterility (Mettler and Schirwani), 117
- Malignancy (malignancies), gynecologic, carcinoembryonic antigen in patients with (DiSaia et al.), 159
- primary hepatic, in pregnant women (Purtilo, Clark, and Williams), 41
- Malignant trophoblast, normal and, enzymes of: Phosphoglucose isomerase, phosphoglucomutase, hexokinase, lactate dehydrogenase, and alkaline phosphatase (Edlow et al.), 674
- Malignum, adenoma (minimal deviation adenocarcinoma), of cervix: Reappraisal (Silverberg and Hurt), 971
- Mass, right adnexal, mesenteric and pancreatic lymphangioma presenting as (Epstein and Berman), 1117 (Comm. in brief)
- Mastectomy, breast cancer recurrences years after, and increased androgenic activity, III. Androgens in breast cancer (Grattarola, Secreto, and Recchione), 169
- Maternal and child health effects, some, in Romania: Restricting legal abortion (Vright), 246
- /fetal bilirubin transfer (Hibbard), 282 (Comm. in brief)
- blood and amniotic fluid, rapid method for measurement of estradiol and hydrocortisone levels in (Sybulski and Maughan), 32
- circulation, human, gonadotropic hormones and their subunits in, at delivery (Hagen and McNeilly), 926
- plasma glucose relationships in late monkey pregnancy (Chez et al.), 938
- levels of pyridoxal phosphate at term: Adequacy of vitamin B₆ supplementation during pregnancy (Cleary, Lumeng, and Li), 25
- heart rate, fetal heart rate, and age of pregnancy, correlation of (Eisenberg de Smoler, Smith, and Karchmer), 62
- hyperthermia, increased uterine activity and fetal deterioration during (Morishima et al.), 531
- metabolic acidosis, blood flow to human uterus during (Blechner, Stenger, and Prystowsky), 789
- oxygen consumption, effect of regional analgesia on, during first stage of labor (Sangoul, Fox, and Houle), 1080
- serum placental lactogen and alpha fetoprotein, prediction of fetal outcome in threatened abortion by (Garoff and Seppälä), 257
- 16 α -hydroxydehydroepiandrosterone and its sulfate, fetal and, on regulation of, by cortisol and ACTH in human pregnancy at term (Simmer, Frankland, and Greipel), 646
- and umbilical cord blood, plasma renin activity in, during parturition (Soveri, Fyhrquist, and Widholm), 559
- Maturation, pulmonary, and lecithin/sphingomyelin ratio in fetal baboon, endocrine influences on (Kling and Kotas), 664
- Maturity, fetal: Biochemical analyses of amniotic fluid (Myers, Harrell, and Hill), 961
- lung, amniotic fluid phospholipids and. I. Assessment of various methods of determining lecithin and sphingomyelin (Jackson, Anderson, and Held), 1095
- pulmonary, prospective evaluation of lecithin/sphingomyelin ratio and rapid surfactant test in relation to (Keniston et al.), 324
- Meconium, blood or, effects of, on determination of amniotic fluid lecithin/sphingomyelin ratio (Buih and Spellacy), 321
- staining, significance of (Fujikura and Klionsky), 45
- Medical school curriculum, obstetric and gynecologic, educational methodology in: Comparison of self-instructional with traditional methods (Munsick), 900
- Menopausal gonadotropin, human, -induced human pregnancies, normal and, serum androstenedione levels during (Thorneycroft et al.), 306
- Menorrhagia, congenital nongoitrous hypothyroidism with, as primary complication of adolescence (Santana and Gardner), 289 (Comm. in brief)
- Menstrual cycle, human, perturbations of, by oxymetholone (Cox et al.), 121
- normal, log normal distribution of gonadotropins and ovarian steroid values in (Kletzky et al.), 688
- extraction (Atienza et al.), 490
- Mesenteric and pancreatic lymphangioma presenting as right adnexal mass (Epstein and Berman), 1117 (Comm. in brief)
- Metabolic acidosis, maternal, blood flow to human uterus during (Blechner, Stenger, and Prystowsky), 789
- Metabolism, calcium, in pregnancy: Review (Pitkin), 724 (Current developments)
- glucose and fatty acid, enzymes of, in early and term human placenta (Diamant et al.), 58
- of progesterone in vivo, estrogen and (Billiar, Jassani, and Little), 877
- propionate, in fetal livers of 15 to 19 weeks' gestation (Morrow et al.), 269

- Metastasis, vulvar basal cell carcinoma with: Case report (Jimenez, Fenoglio, and Richart), 285 (Comm. in brief)
- Methadone assays in pregnant women and progeny (Blinick et al.), 617
- Maintenance Treatment Program, New York City, results of 313 consecutive live births of infants delivered to patients in (Newman, Bashkow, and Calko), 233
- Methyl prostaglandin E_2 , 15, intramuscular, efficacy of, in second-trimester abortion (Dillon et al.), 584
- F_{25} , 15(S)-15-, midtrimester abortion induced by serial intramuscular injections of (Lauersen and Wilson), 273 (Current investigation)
- preliminary experience with (Greer, Droegemueller, and Engel), 524
- Microbiologic study, prospective: Puerperal endometritis (Gibbs et al.), 919
- Microscopic study, electron, of fetal capillary basal laminae of "normal" human term placentas (Martinek, Gallagher, and Essig), 17
- Midtrimester abortifacient, intra-amniotic urea as: Clinical results and serum and urinary changes (Burnett et al.), 7
- abortion, early, extraovular prostaglandin F_{25} (Shapiro), 333
- effect of prostaglandin F_{25} and hypertonic saline on placental function during (Jayaraman et al.), 528
- induced, and fetal loss, infections with mycoplasma and bacteria in (Sompolsky et al.), 610
- by serial intramuscular injections of 15(S)-15-methyl-prostaglandin F_{25} (Lauersen and Wilson), 273 (Current investigation)
- preliminary experience with 15(S)-15-methyl prostaglandin F_{25} for (Greer, Droegemueller, and Engel), 524
- Migration inhibitory factor, macrophage, in female sterility (Mettler and Schirvani), 117
- Model, conceptual, for regionalization and consolidation of obstetric-gynecologic services (Russell, Gardiner, and Nichols), 755
- Mole, hydatidiform, chorionicarcoma, and twin pregnancy, serum α -fetoprotein in (Ishiguro), 539
- and disseminated intravascular coagulation (Egley, Simon, and Haddox), 1122 (Comm. in brief)
- Monitor of chemotherapy in gestational trophoblastic neoplasm by radioimmunoassay of β -subunit of human chorionic gonadotropin (Jones, Lewis, and Lehr), 669
- Monitored pregnancies, six hundred high-risk, incidence of fetal asphyxia in (Low et al.), 456
- Monitoring, computer, of fetal heart rate and uterine pressure (Crawford), 342
- Morbidity, oxytocin administration, and instillation-to-abortion time associated with saline instillation (Berger, Edelman, and Kerenyi), 941
- resulting from criminal abortion, effect of legalized abortion on (Kahan, Baker, and Freeman), 114
- Morphology, endometrial, in women exposed to uterine systems releasing progesterone (Martinez-Manautou et al.), 175
- testicular, sperm-agglutinating antibodies and, in fifty-nine men with azoospermia or cryptozoospermia (Friberg and Kjessler), 987
- Mosaicism, ovarian, anovulation and hypogonadism with (Jones et al.), 991
- Mother, neonate, child, and adult, immunoreactive calcitonin in (Samaan, Anderson, and Adam-Mayne), 622
- Mucus, cervical, significance of timing for postcoital evaluation of (Tredway et al.), 387
- Müllerian duct agenesis associated with renal and skeletal abnormalities (Muechler), 567 (Comm. in brief)
- tumors (carcinosarcoma), homologous mixed, confined to endometrial polyps (Kahner, Ferenczy, and Richart), 278 (Comm. in brief)
- Mycoplasma and bacteria, infections with, in induced midtrimester abortion and fetal loss (Sompolsky et al.), 610
- Myocardial conduction defects in association with compression of umbilical cord (Yeh et al.), 951
- Myogenic control systems of human Fallopian tube, functional analysis of (Daniel et al.), 1046
- structural analysis of (Daniel, Posey, and Paton), 1054
- Neonatal jaundice, ethnic differences in: Comparison of Japanese and Caucasian newborn infants (Horiguchi and Bauer), 71
- mice, late effects in vaginal and cervical epithelia after injections of diethylstilbestrol into (Forsberg), 101
- Neonate, child, adult, and mother, immunoreactive calcitonin in (Samaan, Anderson, and Adam-Mayne), 622
- hemolytic disease of, secondary to anti-Fy^a (Weinstein and Taylor), 643
- Neoplasia, cervical, angiogenesis of (Staff and Mattingly), 845
- Neoplasm(s), gestational trophoblastic, monitor of chemotherapy in, by radioimmunoassay of β -subunit of human chorionic gonadotropin (Jones, Lewis, and Lehr), 669
- trophoblastic, serum lactate dehydrogenase activity in patients with (Sekiya et al.), 1119 (Comm. in brief)
- Neoplastic, benign and, human cervical epithelium, in vitro studies on (Wilbanks), 771
- Neural tube defects, prenatal detection of, present status of (Chaubey and Swinyard), 429 (Current developments)
- New York City Methadone Maintenance Treatment Program, results of 313 consecutive live births of infants delivered to patients in (Newman, Bashkow, and Calko), 233
- Newborn infants, Japanese and Caucasian, comparison of: Ethnic differences in neonatal jaundice (Horiguchi and Bauer), 71
- rabbit, premature, radiologic evaluation of, after pharyngeal deposition of surfactant (Enhorning et al.), 475
- Norlestrin-induced pseudopregnancy in baboon (Klaus et al.), 545
- Nuclear grading, histologic and, stromal reactions as indices for prognosis in ovarian cancer (Barber et al.), 795
- Nucleic acids, polysome pattern, and glycoprotein composition of human endometrium, effect of intrauterine copper on (Hicks et al.), 981
- Nurse practitioner, women's health-care specialist, or physician's assistant, training and function of, in obstetrics and gynecology (Ostergard, Gunning, and Marshall), 1029
- O
- Obstetric(s) and gynecologic medical school curriculum, educational methodology in: Comparison of self-instructional with traditional methods (Munsick), 900
- service(s), bacteremia on (Ledger et al.), 205
- conceptual model for regionalization and consolidation of (Russell, Gardiner, and Nichols), 755
- and gynecology, training and function of women's health-care specialist, physician's assistant, or nurse practitioner in (Ostergard, Gunning, and Marshall), 1029
- Obstetrician(s) and gynecologist(s), continuing education of, in fertility management (King et al.), 829
- is specialist or primary physician to women (Burkous and Willson), 808
- Operations, exenterative: Experience with 198 patients (Symmonds, Pratt, and Webb), 907
- Oral contraceptive(s) pills, estrogen potency of (Chihai, Peppler, and Dickey), 75
- and vitamins: Review (Larson-Cohn), 84
- women taking, normal women, and pregnant women, chromosome breakage studies in lymphocytes from (Littlefield et al.), 976
- prostaglandin E_2 , preinduction priming with (Friedman and Sachtleben), 521
- Osteogenesis imperfecta congenita, prenatal diagnosis of (Heller, Winn, and Heller), 572 (Comm. in brief)
- Ovarian arteriovenous fistula (Weed et al.), 569 (Comm. in brief)
- cancer, histologic and nuclear grading and stromal reactions as indices for prognosis in (Barber et al.), 795
- cystadenofibroma: Consideration of role of estrogen in its pathogenesis (Papadaki and Beilby), 501
- disease, polycystic, circulating gonadotropins, estrogens, and androgens in (DeVane et al.), 496
- function, acute effect of hysterectomy on (Stone, Dickey, and Mickal), 193
- hyperstimulation syndrome, acute hydrothorax as only symptom of (Jewelewicz and Vande Wiele), 1121 (Comm. in brief)
- mosaicism, anovulation and hypogonadism with (Jones et al.), 991
- response to exogenously administered human gonadotropins during postpartum period (Nakano et al.), 187
- steroid values, gonadotropins and, log normal distribution of, in normal menstrual cycle (Kletzky et al.), 688
- Ovary disease, polycystic, typical and atypical, pituitary gonadotropin responses to synthetic luteinizing hormone-releasing hormone in patients with (Paton et al.), 382

- Ovulation, induction of, in infertile women with pituitary tumors (Gemzell), 311
- Oxygen consumption, maternal, effect of regional analgesia on, during first stage of labor (Sangoul, Fox, and Houle), 1080
- Oxymetholone, perturbations of human menstrual cycle by (Cox et al.), 121
- Oxytocin administration, instillation-to-abortion time, and morbidity associated with saline instillation (Berger, Edelman, and Kerenyi), 941
- water intoxication associated with, during saline-induced abortion (Lauersen and Birnbaum), 2
- challenge test in management of high-risk pregnancies (Gaziano, Hill, and Freeman), 947
- use of, for antepartum clinical evaluation of uteroplacental respiratory function (Freeman), 481 (Clinical opinion)
- desamino-, latent period, time to reach maximum effect, and disappearance of uterine contractility induced by (Tobías), 337
- P
- Pancreatic lymphangioma, mesenteric and, presenting as right adnexal mass (Epstein and Berman), 1117 (Comm. in brief)
- Pap smear: Take two (Shulman et al.), 1024
- test, abnormal, colposcopic evaluation of, in pregnancy (DePetrillo et al.), 441
- Parturition, plasma renin activity in maternal and umbilical cord blood during (Soveri, Fyhrquist, and Widholm), 539
- Pathogenesis, its, consideration of role of estrogen in: Ovarian cystadenofibroma (Papadaki and Beilby), 501
- Pathology, placental, of small-for-gestational age infants (Altshuler, Russell, and Ermocilla), 351
- Pelvic examination, teaching, to second-year medical students using programmed patients (Johnson et al.), 714
- inflammatory disease, acute, effect of, on fertility (Weström), 707
- Pelvimetry, Ball, computerized aid to (Klapholz), 1067
- Perinatal deaths, effectiveness of human placental lactogen measurements as adjunct in decreasing (Spellacy, Buih, and Birk), 835
- Peritoneal adhesion formation, effect of thirty-two per cent dextran 70 on (Neuwirth and Khalaf), 420
- Pharyngeal deposition of surfactant, radiologic evaluation of premature newborn rabbit after (Enhorning et al.), 475
- Phosphatase, alkaline, phosphoglucose isomerase, phosphoglucomutase, hexokinase, and lactate dehydrogenase: Enzymes of normal and malignant trophoblast (Edlow et al.), 674
- Phosphate, pyridoxal, and hypertensive disorders of pregnancy (Brophy and Siiteri), 1075
- maternal and fetal plasma levels of, at term: Adequacy of vitamin B₆ supplementation during pregnancy (Cleary, Lumeng, and Li), 25
- Phosphoglucomutase, hexokinase, lactate dehydrogenase, alkaline phosphatase, and phosphoglucose isomerase: Enzymes of normal and malignant trophoblast (Edlow et al.), 674
- Phosphoglucose isomerase, phosphoglucomutase, hexokinase, lactate dehydrogenase, and alkaline phosphatase: Enzymes of normal and malignant trophoblast (Edlow et al.), 674
- Phospholipid(s), amniotic fluid, and fatty acids in normal pregnancies (Schirar et al.), 653
- and fetal lung maturity. I. Assessment of various methods of determining lecithin and sphingomyelin (Jackson, Anderson, and Held), 1095
- analysis, amniotic fluid, in normal and complicated pregnancies (Dühring and Thompson), 218
- Physician, primary, specialist or, to women, is obstetrician-gynecologist (Burkons and Willson), 808
- Physician's assistant, nurse practitioner, or women's health-care specialist, training and function of, in obstetrics and gynecology (Ostergard, Gunning, and Marshall), 1029
- Pill(s), oral contraceptive, estrogen potency of (Chihal, Peppler, and Dickey), 75
- Pituitary gonadotropin responses to synthetic luteinizing hormone-releasing hormone in patients with typical and atypical polycystic ovary disease (Patton et al.), 382
- tumors, induction of ovulation in infertile women with (Gemzell), 311
- Placenta(s), early and term human, enzymes of glucose and fatty acid metabolism in (Diamant et al.), 58
- human, in vitro biosynthesis of TSH- and LH-releasing factors by (Gibbons, Mitnick, and Chieffo), 127 (Current investigation)
- to-infant transfusion, cesarean section prevents, despite delayed cord clamping (Kleinberg, Dong, and Phibbs), 66
- "normal" human term, electron microscopic study of fetal capillary basal laminae of (Martinek, Gallagher, and Essig), 17
- Placental function, effect of prostaglandin F_{2α} and hypertonic saline on, during midtrimester abortion (Jayaraman et al.), 528
- lactogen and alpha fetoprotein, maternal serum, prediction of fetal outcome in threatened abortion by (Garoff and Seppälä), 257
- measurements, human, effectiveness of, as adjunct in decreasing perinatal deaths (Spellacy, Buih, and Birk), 835
- pathology of small-for-gestational age infants (Altshuler, Russell, and Ermocilla), 351
- Planning clinic, family, gonorrhea detection in: Cost-benefit analysis of 2,000 triplicate cultures (Keith, Moss, and Berger), 399
- Plasma deoxyribonucleic acid concentrations of women in labor and umbilical cords (Kamm and Smith), 29
- glucose relationships, maternal-fetal, in late monkey pregnancy (Chez et al.), 938
- human liquor amnii and, angiotensins I and II, active and inactive renin, renin substrate, renin activity, and angiotensinase in (Skinner et al.), 626
- levels, maternal and fetal, of pyridoxal phosphate at term: Adequacy of vitamin B₆ supplementation during pregnancy (Cleary, Lumeng, and Li), 25
- of patients with gynecologic cancers, variations of carcinoembryonic antigen level in, during therapy (Barcelet and Mach), 164
- progesterone, IV, Hormones in human pregnancy (Tulchinsky and Okada), 293
- renin activity in maternal and umbilical cord blood during parturition (Soveri, Fyhrquist, and Widholm), 539
- retransfusion, effect of, on blood pressure in puerperium (Pirani and MacGillivray), 221
- Polycystic ovarian disease, circulating gonadotropins, estrogens, and androgens in (DeVane et al.), 496
- ovary disease, typical and atypical, pituitary gonadotropin responses to synthetic luteinizing hormone-releasing hormone in patients with (Patton et al.), 382
- Polyp(s), endometrial, homologous mixed Müllerian tumors (carcinosarcoma) confined to (Kahner, Ferenczy, and Richart), 278 (Comm. in brief)
- Polysome pattern, glycoprotein composition, and nucleic acids of human endometrium, effect of intrauterine copper on (Hicks et al.), 981
- Postcoital diethylstilbestrol, ectopic pregnancy after (Smythe and Underwood), 284 (Comm. in brief)
- evaluation of cervical mucus, significance of timing for (Tredway et al.), 387
- tests, antibodies against spermatozoa in infertile women with poorly invading spermatozoa on (Wall et al.), 198
- Postmaturity, possible role of fetal adrenal glands in etiology of (Nwosu et al.), 366
- Postmenopausal women, normal, correlation between urinary testosterone or estrogen excretion levels and interstitial cell-stimulating hormone concentrations in (Grattarola, Secreto, and Recchione), 380
- Postpartum lactation, evaluation of Deladumone OB in suppression of (Louviere and Upton), 641
- period, ovarian response to exogenously administered human gonadotropins during (Nakano et al.), 187
- Postpubertal women, fertility control in large vaccination program for: Rubella vaccination (Halstead et al.), 1089
- Practitioner, nurse, women's health-care specialist, or physician's assistant, training and function of, in obstetrics and gynecology (Ostergard, Gunning, and Marshall), 1029
- Pre-eclampsia, spontaneous lymphocyte transformation in pregnancies complicated by (Gaugas, Jones, and Curzen), 542

- Pregnancy (pregnancies), adequacy of vitamin B₆ supplementation during: Maternal and fetal plasma levels of pyridoxal phosphate at term (Cleary, Lumeng, and Li), 25
- age of, fetal heart rate, and maternal heart rate, correlation of (Eisenberg de Smoler, Smith, and Karchmer), 62
- calcium metabolism in: Review (Pitkin), 724 (Current developments)
- changes in ratio between serum and "specific" levels of human chorionic gonadotropin in different trimesters of (Dattatreya-murty et al.), 300
- circulating vasopressinase of: Species comparison with radioimmunoassay (Rosenbloom, Sack, and Fisher), 316
- colposcopic evaluation of abnormal Papanicolaou test in (De-Pettillo et al.), 441
- complicated by intrapartum fetal asphyxia, clinical characteristics of (Low et al.), 452
- by pre-eclampsia, spontaneous lymphocyte transformation in (Gaugas, Jones, and Curzen), 542
- complications of, with intrauterine contraceptive device in situ (Dreishpoon), 412
- early, its usefulness and reliability in: Ultrasonography (Stocker, Desjardins, and Deleon), 1084
- ectopic, after postcoital diethylstilbestrol (Smythe and Underwood), 284 (Comm. in brief)
- high-risk, oxytocin challenge test in management of (Gaziano, Hill, and Freeman), 947
- spectral analysis as diagnostic aid in management of (Chess et al.), 471
- human, hormones in. IV. Plasma progesterone (Tulchinsky and Okada), 293
- at term, on regulation of fetal and maternal 16 α -hydroxydehydroepiandrosterone and its sulfate by ACTH and cortisol in (Simmer, Frankland, and Greipel), 646
- hypertensive disorders of, pyridoxal phosphate and (Brophy and Süteri), 1075
- late monkey, maternal-fetal plasma glucose relationships in (Chez et al.), 938
- luteoma of: Case report (Tucker, Buell, and Fisher), 282 (Comm. in brief)
- normal, amniotic fluid phospholipids and fatty acids in (Schirar et al.), 633
- and complicated, amniotic fluid phospholipid analysis in (Duhring and Thompson), 218
- and human menopausal gonadotropin-induced, serum androstenedione levels during (Thornycroft et al.), 306
- one spontaneous, congenital adrenal hyperplasia caused by 11 β -hydroxylase deficiency with onset of symptoms after (Toaff, Toaff, and Chayen), 202
- in presence of intrauterine contraceptive device and amniotic fluid embolism: Possible association (Thomsen), 279 (Comm. in brief)
- pulmonary insufficiency associated with (Futoran and Hill), 637
- renal hypertension and, in sheep. I. Behavior of uteroplacental vasomotor tone during mild hypertension (Brinkman, Nuwayhid, and Assali), 931
- safety of lincomycin in (Mickal and Panzer), 1071
- serum human chorionic gonadotropin and progesterone patterns in last trimester of: Relationship to fetal sex (Boroditsky et al.), 238
- six hundred high-risk monitored, incidence of fetal asphyxia in (Low et al.), 456
- some effects of diazepam on, in Balb/C mouse (Stenchever and Parks), 765
- surgical management of invasive cancer of cervix in (Thompson et al.), 845
- thyrotoxicosis during, treatment of, with propranolol (Bullock, Harris, and Young), 242
- twin, hydatidiform mole, and choriocarcinoma, serum α -fetoprotein in (Ishiguro), 539
- Pregnant baboon, effect of bretec (Th 1165a) on spontaneous and induced uterine activity in (Lauersen, Wilson, and Fuchs), 597
- ewe, effects of long-term administration of ³H-digoxin to, upon cardiovascular hemodynamics of fetal lamb (Hernandez et al.), 1100
- term, effect of exogenous dehydroepiandrosterone upon fetoplacental biosynthesis of estrogens and its effect upon uterine blood flow in (Pupkin et al.), 227
- patient at term, ruptured berry aneurysm in (Borno et al.), 573 (Comm. in brief)
- women, high-risk, infants of, cord blood coagulation studies in (Hathaway, Mahasandana, and Makowski), 51
- primary hepatic malignancy in (Purtilo, Clark, and Williams), 41
- and progeny, methadone assays in (Blinick et al.), 617
- women taking oral contraceptives, and normal women, chromosome breakage studies in lymphocytes from (Littlefield et al.), 976
- Premature newborn rabbit, radiologic evaluation of, after pharyngeal deposition of surfactant (Enhorning et al.), 475
- Prenatal detection of neural tube defects, present status of (Chaube and Swinyard), 429 (Current developments)
- diagnosis of osteogenesis imperfecta congenita (Heller, Winn, and Heller), 572 (Comm. in brief)
- genetic diagnosis, new clinical tool for—"Fetoscope" (Benzie and Doran), 460
- Pressure, blood, in puerperium, effect of plasma retransfusion on (Pirani and MacGillivray), 221
- uterine, fetal heart rate and, computer monitoring of (Crawford), 342
- Primigravida, elderly (Morrison), 465
- Printed communications (Clayton), 744
- Progeny, pregnant women and, methadone assays in (Blinick et al.), 617
- Progesterone, effect of, on estrogen receptors in rabbit uterus (Martin et al.), 180
- endometrial morphology in women exposed to uterine systems releasing (Martinez-Manautou et al.), 175
- estrogen and, failure of, to affect protein synthesis by established endometrial cell line (Shapiro, Van Der Schouw, and Hagerman), 570 (Comm. in brief)
- induced uterine bleeding and measurement of serum gonadotropin levels, clinical categorization of patients with secondary amenorrhea using (Kletzky et al.), 695
- isolation of (Slotta), 428 (Classic pages)
- metabolism of, in vivo, estrogen and (Billiar, Jassani, and Little), 877
- patterns, serum human chorionic gonadotropin and, in last trimester of pregnancy: Relationship to fetal sex (Boroditsky et al.), 238
- plasma, IV. Hormones in human pregnancy (Tulchinsky and Okada), 293
- releasing intrauterine contraceptive device, clinical study of (Brenner, Cooper, and Mishell), 704
- Prognosis in ovarian cancer, histologic and nuclear grading and stromal reactions as indices for (Barber et al.), 795
- Programmed patients, teaching pelvic examination to second-year medical students using (Johnson et al.), 714
- Prolactin, endogenous human, inhibition of cyclic gonadotropin secretion by (Tyson et al.), 375
- levels, serum, during puberty (Ehara, Yen, and Siler), 995
- patterns, serum, in early human gestation (Barberia et al.), 1107 (Current investigation)
- patterns, serum, in early human gestation (Barberia et al.), 1107 (Current investigation)
- serum, failure of insulin hypoglycemia to produce rise in (Cohen and Gala), 1103 (Current investigation)
- Prophylaxis, antibiotic, in gynecology, guidelines for (Ledger, Gee, and Lewis), 1038
- Propionate metabolism in fetal livers of 15 to 19 weeks' gestation (Morrow et al.), 269
- Propranolol, treatment of thyrotoxicosis during pregnancy with (Bullock, Harris, and Young), 242
- Prostaglandin(s) E₂, intramuscular 15 methyl, efficacy of, in second-trimester abortion (Dillon et al.), 584
- oral, preinduction priming with (Friedman and Sachtleben), 521
- F₂₀, coagulation mechanism in labor at term induced with (Glueck and Barden), 213

Prostaglandin(s) $F_{2\alpha}$ —Cont'd

- and E_2 , levels of, in human endometrium during menstrual cycle (Singh, Baccarini, and Zuspan), 1003 (Current investigation)
- extraovular, for early midtrimester abortion (Shapiro), 333
- 15(S)-15-methyl-midtrimester abortion induced by serial intramuscular injections of (Lauersen and Wilson), 273 (Current investigation)
- preliminary experience with (Greer, Droegemueller, and Engel), 524
- and hypertonic saline, effect of, on placental function during midtrimester abortion (Jayaraman et al.), 528
- Protein synthesis by established endometrial cell line, failure of estrogen and progesterone to affect (Shapiro, Van Der Schouw, and Hagerman), 570 (Comm. in brief)
- Pseudopregnancy, norelgestin-induced, in baboon (Klaus et al.), 545
- Puberty, serum prolactin levels during (Ehara, Yen, and Siler), 995
- Puerperal endometritis: Prospective microbiologic study (Gibbs et al.), 919
- Puerperium, effect of plasma retransfusion on blood pressure in puerperium (Pirani and MacGillivray), 221
- Pulmonary insufficiency associated with pregnancy (Futoran and Hill), 637
 - maturation and lecithin/sphingomyelin ratio in fetal baboon, endocrine influences on (Kling and Kotas), 664
 - maturity, fetal, prospective evaluation of lecithin/sphingomyelin ratio and rapid surfactant test in relation to (Keniston et al.), 324
- Pyridoxal phosphate and hypertensive disorders of pregnancy (Brophy and Siiteri), 1075
 - maternal and fetal plasma levels of, at term: Adequacy of vitamin B_6 supplementation during pregnancy (Cleary, Lumeng, and Li), 25

R

- Radiation therapy for cervical carcinoma, significance of cervicovaginal cytology after (McLennan and McLennan), 96
- Radioimmunoassay of β -subunit of human chorionic gonadotropin, monitor of chemotherapy in gestational trophoblastic neoplasia by (Jones, Lewis, and Lehr), 669
 - species comparison with: Circulating vasopressinase of pregnancy (Rosenbloom, Sack, and Fisher), 316
- Radiologic evaluation of premature newborn rabbit after pharyngeal deposition of surfactant (Enhorning et al.), 475
- Rate, fetal heart, maternal heart rate, and age of pregnancy, correlation of (Eisenberg de Smoler, Smith, and Karchner), 62
 - and uterine pressure, computer monitoring of (Crawford), 342
- Ratio, amniotic fluid lecithin/sphingomyelin, effects of blood or meconium on determination of (Buihi and Spellacy), 321
 - between serum and "specific" levels of human chorionic gonadotropin in different trimesters of pregnancy, changes in (Dattatreya Murty et al.), 300
 - lecithin/sphingomyelin, pulmonary maturation and, in fetal baboon, endocrine influences on (Kling and Kotas), 664
 - and rapid surfactant test, prospective evaluation of, in relation to fetal pulmonary maturity (Keniston et al.), 324
- Receptor, beta-, stimulation in essential dysmenorrhea (Hansen and Secher), 566 (Comm. in brief)
- Regionalization and consolidation of obstetric-gynecologic services, conceptual model for (Russell, Gardiner, and Nichols), 755
- Releasing factors, TSH- and LH-, in vitro biosynthesis of, by human placenta (Gibbons, Mitnick, and Chieffo), 127 (Current investigation)
 - hormone-, silicone-rubber intrauterine contraceptive devices (Doyle), 405
 - luteinizing hormone-, hormone, synthetic, pituitary gonadotropin responses to, in patients with typical and atypical polycystic ovary disease (Patton et al.), 382
- Renal hypertension and pregnancy in sheep. I. Behavior of uteroplacental vasomotor tone during mild hypertension (Brinkman, Nuwayhid, and Assali), 931
 - and skeletal abnormalities, Müllerian duct agenesis associated with (Muechler), 567 (Comm. in brief)
- Renin, active and inactive, renin substrate, renin activity, angiotensinase, and angiotensins I and II in human liquor amnii and plasma (Skinner et al.), 626
 - activity, plasma, in maternal and umbilical cord blood during parturition (Soveri, Fyhrquist, and Widholm), 559

- Respiratory distress, fetal, following fetography (Crosby), 958
 - syndrome, risk of, as determined by amniotic fluid lecithin concentration (Nelson), 752
- function, uteroplacental, use of oxytocin challenge test for antepartum clinical evaluation of (Freeman), 481 (Clinical opinion)
- Retransfusion, plasma, effect of, on blood pressure in puerperium (Pirani and MacGillivray), 221
- Risk, high-, monitored pregnancies, six hundred, incidence of fetal asphyxia in (Low et al.), 456
 - pregnancy (pregnancies), oxytocin challenge test in management of (Gaziano, Hill, and Freeman), 947
 - spectral analysis as diagnostic aid in management of (Chess et al.), 471
 - pregnant women, infants of, cord blood coagulation studies in (Hathaway, Mahasandana, and Makowski), 51
- of respiratory distress syndrome as determined by amniotic fluid lecithin concentration (Nelson), 752
- Romania, some maternal and child health effects in: Restricting legal abortion (Wright), 246
- Roster of American obstetrical and gynecological societies, 148
- Rubber, silicone-, intrauterine contraceptive devices, hormone-releasing (Doyle), 405
- Rubella vaccination: Fertility control in large-scale vaccination program for postpubertal women (Halstead et al.), 1089
 - virus vaccine, HPV-77, DE5, late seroconversion following (Wilkins), 998
- Rupture, uterine, incorrectly used seat belt associated with, following vehicular collision (Matthews), 1115 (Comm. in brief)
- Ruptured berry aneurysm in pregnant patient at term (Borno et al.), 573 (Comm. in brief)

S

- Saline, hypertonic, mode of action of, in inducing abortion (Llewellyn-Jones, Clarke, and Shutt), 568 (Comm. in brief)
 - prostaglandin $F_{2\alpha}$ and, effect of, on placental function during midtrimester abortion (Jayaraman et al.), 528
- induced abortion(s), 300, volume and sodium concentration studies in (Kerenyi and Muzsnai), 590
 - water intoxication associated with oxytocin administration during (Lauersen and Birnbaum), 2
- instillation, oxytocin administration, instillation-to-abortion time, and morbidity associated with (Beiger, Edelman, and Kerenyi), 941
- Salpingostomy, electromicrosurgery and: Long-term results (Swolin), 418
- Scalp electrodes, spiral fetal, hazard associated with use of (Thomas and Blackwell), 1118 (Comm. in brief)
- Seat belt, incorrectly used, associated with uterine rupture following vehicular collision (Matthews), 1115 (Comm. in brief)
- Secretion, cyclic gonadotropin, inhibition of, by endogenous human prolactin (Tyson et al.), 375
- Section, cesarean, prevents placenta-to-infant transfusion despite delayed cord clamping (Kleinberg, Dong, and Phibbs), 66
- Seroconversion, late, following HPV-77, DE5 rubella virus vaccine (Wilkins), 998
- Serum α -fetoprotein in hydatidiform mole, choriocarcinoma, and twin pregnancy (Ishiguro), 539
 - androstenedione levels during normal and human menopausal gonadotropin-induced human pregnancies (Thornycroft et al.), 306
 - gonadotropin levels, measurement of, progesterone-induced uterine bleeding and, clinical categorization of patients with secondary amenorrhea using (Kletzky et al.), 695
 - human chorionic gonadotropin and progesterone patterns in last trimester of pregnancy: Relationship to fetal sex (Boroditsky et al.), 238
 - lactate dehydrogenase activity in patients with trophoblastic neoplasms (Sekiya et al.), 1119 (Comm. in brief)
 - luteinizing hormone, use of, in clinical management of short-term amenorrhea (Bloch), 1021 (Clinical opinion)
 - placental lactogen and alpha fetoprotein, maternal, prediction of fetal outcome in threatened abortion by (Garoff and Seppälä), 237
 - prolactin, failure of insulin hypoglycemia to produce rise in (Cohen and Gala), 1103 (Current investigation)

- Serum prolactin—Cont'd
levels during puberty (Ehara, Yen, and Siler), 995
patterns in early human gestation (Barberia et al.), 1107 (Current investigation)
and "specific" levels of human chorionic gonadotropin in different trimesters of pregnancy, changes in ratio between (Dattatreya et al.), 300
and urinary changes, clinical results and: Intra-amniotic urea as midtrimester abortifacient (Burnett et al.), 7
- Sex, fetal, relationship to: Serum human chorionic gonadotropin and progesterone patterns in last trimester of pregnancy (Boroditsky et al.), 238
- Shield, Dalkon, in private practice: Disappointment (Shirley), 564 (Comm. in brief)
- Silicone-rubber intrauterine contraceptive devices, hormone-releasing (Doyle), 405
- Skeletal abnormalities, renal and, Müllerian duct agenesis associated with (Muechler), 567 (Comm. in brief)
- Small-for-gestational age infants, placental pathology of (Altschuler, Russell, and Ermocilla), 351
- Smear, Pap: Take two (Shulman et al.), 1024
- Society of Obstetricians and Gynaecologists of Canada, transactions, thirtieth annual meeting, 441-480
- Sodium concentration studies, volume and, in 300 saline-induced abortions (Kerenyi and Muzsai), 590
- Sonar biparietal diameter growth standards in rhesus monkey (Sabagha, Turner, and Chez), 371
- Specialist or primary physician to women, is obstetrician-gynecologist (Burkons and Wilson), 808
women's health-care, physician's assistant, or nurse practitioner, training and function of, in obstetrics and gynecology (Ostergard, Gunning, and Marshall), 1029
- Species comparison with radioimmunoassay: Circulating vasopressinase of pregnancy (Rosenbloom, Sack, and Fisher), 316
- Sperm-agglutinating antibodies and testicular morphology in fifty-nine men with azoospermia or cryptozoospermia (Friberg and Kjessler), 987
- Spermatozoa, antibodies against, in infertile women with poorly invading spermatozoa on postcoital tests (Wall et al.), 198
- Sphingomyelin, lecithin and, assessment of various methods of determining, I. Amniotic fluid phospholipids and fetal lung maturity (Jackson, Anderson, and Held), 1095
ratio, amniotic fluid, effects of blood or meconium on determination of (Bui and Spellacy), 321
pulmonary maturation and, in fetal baboon, endocrine influences on (Kling and Kotas), 664
and rapid surfactant test, prospective evaluation of, in relation to fetal pulmonary maturity (Keniston et al.), 324
- Spiral fetal scalp electrodes, hazard associated with use of (Thomas and Blackwell), 1118 (Comm. in brief)
- Squamous cell carcinoma of cervix, cellular hypersensitivity in patients with (Chen, Koffler, and Cohen), 91
- Staining, meconium, significance of (Fujikura and Klionsky), 45
- Sterility, female, macrophage migration inhibitory factor in (Mettler and Schirwani), 117
- Sterilization, permanent, by hysteroscopic cauterization (Cibils), 513
Uchida tubal (Uchida), 153 (Clinical opinion)
- Steroid(s), affinity-labeling, synthesis and use of, for interceptive purposes (Clark, Sweet, and Warren), 864
blood levels, gonadotropins and, effects of Danazol on, in normal and anovulatory women (Andrews and Wentz), 817
values, ovarian, gonadotropins and, log normal distribution of, in normal menstrual cycle (Kletzky et al.), 688
- Stimulating, interstitial cell-, hormone concentrations, urinary testosterone or estrogen excretion levels and, correlation between, in normal postmenopausal women (Grattarola, Secreto, and Recchione), 380
- Stimuli, stressful, failure of, to inhibit embryo implantation in rat (Castro-Vázquez et al.), 968
- Stressful stimuli, failure of, to inhibit embryo implantation in rat (Castro-Vázquez et al.), 968
- Stromal reactions, histologic and nuclear grading and, as indices for prognosis in ovarian cancer (Barber et al.), 795
- Substrate, renin, renin activity, angiotensinase, angiotensins I and II, and active and inactive renin in human liquor amnii and plasma (Skinner et al.), 626
- Sulfate, its, fetal and maternal 16 α -hydroxydehydroepiandrosterone and, on regulation of, by cortisol and ACTH in human pregnancy at term (Simmer, Frankland, and Greipel), 646
Summary of analysis of published articles, 383 (Editorial)
- Suprapubic drainage by trocar catheter, further experience with (Ingiam), 385
- Surfactant, pharyngeal deposition of, radiologic evaluation of premature newborn rabbit after (Enhorning et al.), 475
test, rapid, lecithin/sphingomyelin ratio and, prospective evaluation of, in relation to fetal pulmonary maturity (Keniston et al.), 324
- Surgical management of invasive cancer of cervix in pregnancy (Thompson et al.), 845
- Symptom, only, of ovarian hyperstimulation syndrome, acute hydrothorax as (Jewelewicz and Vande Wiele), 1121 (Comm. in brief)
- Syndrome, ovarian hyperstimulation, acute hydrothorax as only symptom of (Jewelewicz and Vande Wiele), 1121 (Comm. in brief)
respiratory distress, risk of, as determined by amniotic fluid lecithin concentration (Nelson), 732
- Synthesis, protein, by established endometrial cell line, failure of estrogen and progesterone to affect (Shapiro, Van Der Schouw, and Hagerman), 570 (Comm. in brief)
and use of affinity-labeling steroids for interceptive purposes (Clark, Sweet, and Warren), 864
- Synthetic luteinizing hormone-releasing hormone, pituitary gonadotropin responses to, in patients with typical and atypical polycystic ovary disease (Patton et al.), 382
- T
- Teaching pelvic examination to second-year medical students using programmed patients (Johnson et al.), 714
- Tent(s), laminaria, complications caused by difficult removal of (Gusdon and May), 286 (Comm. in brief)
- Terbutaline, relaxing effect of, on human uterus during term labor (Andersson et al.), 602
- Term breech deliveries, six-year prospective study of, utilizing Zaruchni-Andros Prognostic Scoring Index (Bird and McElin), 551
human placenta, early and, enzymes of glucose and fatty acid metabolism in (Diamant et al.), 58
pregnancy at, on regulation of fetal and maternal 16 α -hydroxydehydroepiandrosterone and its sulfate by ACTH and cortisol in (Simmer, Frankland, and Greipel), 646
labor at, induced with prostaglandin F_{2 α} , coagulation mechanism in (Glueck and Barden), 213
relaxing effect of terbutaline on human uterus during (Andersson et al.), 602
- maternal and fetal plasma levels of pyridoxal phosphate at: Adequacy of vitamin B₆ supplementation during pregnancy (Cleary, Lumeng, and Li), 25
- placentas, "normal" human, electron microscopic study of fetal capillary basal laminae of (Martinek, Gallagher, and Essig), 17
- pregnant ewe, effect of exogenous dehydroepiandrosterone upon fetoplacental biosynthesis of estrogens and its effect upon uterine blood flow in (Pupkin et al.), 227
- ruptured berry aneurysm in pregnant patient at (Borno et al.), 573 (Comm. in brief)
- twin breech delivery at, with hyperextension of second fetus: Case report (Levy and Hall), 1116 (Comm. in brief)
- Test(s), abnormal Papanicolaou, colposcopic evaluation of, in pregnancy (DePetrillo et al.), 441
oxytocin challenge, in management of high-risk pregnancies (Gaziano, Hill, and Freeman), 947
use of, for antepartum clinical evaluation of uteroplacental respiratory function (Freeman), 481 (Clinical opinion)
postcoital, antibodies against spermatozoa in infertile women with poorly invading spermatozoa on (Wall et al.), 198
rapid surfactant, lecithin/sphingomyelin ratio and, prospective evaluation of, in relation to fetal pulmonary maturity (Keniston et al.), 324
- Testicular morphology, sperm-agglutinating antibodies and, in fifty-nine men with azoospermia or cryptozoospermia (Friberg and Kjessler), 987

- Testosterone or estrogen excretion levels, urinary, and interstitial cell-stimulating hormone concentrations, correlation between, in normal postmenopausal women (Grattarola, Secreto, and Recchione), 380
- Therapy, radiation, for cervical carcinoma, significance of cervico-vaginal cytology after (McLennan and McLennan), 96
- variations of carcinoembryonic antigen level in plasma of patients with gynecologic cancers during (Barrelet and Mach), 164
- Thyrototoxicosis during pregnancy, treatment of, with propranolol (Bullock, Harris, and Young), 242
- Timing, significance of, for postcoital evaluation of cervical mucus (Tredway et al.), 387
- Tone, uteroplacental vasomotor, behavior of, during mild hypertension, I. Renal hypertension and pregnancy in sheep (Brinkman, Nuwayhid, and Assali), 931
- Transactions, eighty-fifth annual meeting, American Association of Obstetricians and Gynecologists, 739-873, 877-918
- thirtieth annual meeting, Society of Obstetricians and Gynecologists of Canada, 441-480
- Transfer, maternal/fetal bilirubin (Hibbard), 282 (Comm. in brief)
- Transfusion, placenta-to-infant, cesarean section prevents, despite delayed cord clamping (Kleinberg, Dong, and Phibbs), 66
- Treatment of endometriosis with Danazol (Ansbacher), 283
- of thyrototoxicosis during pregnancy with propranolol (Bullock, Harris, and Young), 242
- Trimester(s), different, of pregnancy, changes in ratio between serum and "specific" levels of human chorionic gonadotropin in (Dattatreyaumurthy et al.), 300
- last, of pregnancy, serum human chorionic gonadotropin and progesterone patterns in: Relationship to fetal sex (Boroditsky et al.), 238
- second-, abortion, efficacy of intramuscular 15 methyl prostaglandin E₂ in (Dillon et al.), 584
- Trocar catheter, further experience with suprapubic drainage by (Ingram), 885
- Trophoblast, normal and malignant, enzymes of: Phosphoglucose isomerase, phosphoglucose mutase, hexokinase, lactate dehydrogenase, and alkaline phosphatase (Edlow et al.), 674
- Trophoblastic neoplasm(s), gestational, monitor of chemotherapy in, by radioimmunoassay of β -subunit of human chorionic gonadotropin (Jones, Lewis, and Lehr), 669
- serum lactate dehydrogenase activity in patients with (Sekiya et al.), 1119 (Comm. in brief)
- TSH- and LH-releasing factors, in vitro biosynthesis of, by human placenta (Gibbons, Mitnick, and Chieffo), 127 (Current investigation)
- Tubal electrocoagulation under hysteroscopic control (three hundred and fifty cases) (Quiñones G., Alvarado D., and Ley Ch.), 1111 (Current investigation)
- sterilization, Uchida (Uchida), 153 (Clinical opinion)
- Tube defects, neural, prenatal detection of, present status of (Chaube and Swinyard), 429 (Current developments)
- human Fallopian, functional analysis of myogenic control systems of (Daniel et al.), 1046
- structural analysis of myogenic control systems of (Daniel, Posey, and Paton), 1054
- Tumor(s) (carcinosarcoma), homologous mixed Müllerian, confined to endometrial polyps (Kahner, Ferenczy, and Richart), 278 (Comm. in brief)
- of gynecologic importance, aberrant hormone activity by (Shane and Naftolin), 133 (Current developments)
- pituitary, induction of ovulation in infertile women with (Gemzell), 311
- Twin breech delivery at term with hyperextension of second fetus: Case report (Levy and Hall), 1116 (Comm. in brief)
- pregnancy, hydatidiform mole, and choriocarcinoma, serum α -fetoprotein in (Ishiguro), 539
- U
- Uchida tubal sterilization (Uchida), 153 (Clinical opinion)
- Ultrasonography: Its usefulness and reliability in early pregnancy (Stocker, Desjardins, and Deleon), 1084

- myocardial conduction defects in association with compression of (Yeh et al.), 951
- women in labor and, plasma deoxyribonucleic acid concentrations of (Kamm and Smith), 29
- Urea, intra-amniotic, as midtrimester abortifacient: Clinical results and serum and urinary changes (Burnett et al.), 7
- Urinary changes, serum and, clinical results and: Intra-amniotic urea as midtrimester abortifacient (Burnett et al.), 7
- testosterone or estrogen excretion levels and interstitial cell-stimulating hormone concentrations, correlation between, in normal postmenopausal women (Grattarola, Secreto, and Recchione), 380
- Uterine activity, increased, and fetal deterioration during maternal hyperthermia (Morishima et al.), 531
- spontaneous and induced, in pregnant baboon, effect of berotec (Th 1165a) on (Lauersen, Wilson, and Fuchs), 597
- arteries, isolated human, in vitro, investigations into spontaneous contractile activity of (Czekanowski), 718
- bleeding, progesterone-induced and measurement of serum gonadotropin levels, clinical categorization of patients with secondary amenorrhea using (Kletsky et al.), 695
- blood flow in term pregnant ewe, effect of exogenous dehydroepiandrosterone upon fetoplacental biosynthesis of estrogens and its effect upon (Pupkin et al.), 227
- cervix, congenital absence of (Farber and Marchant), 414
- contractility induced by desamino-oxytocin, latent period, time to reach maximum effect, and disappearance of (Tobias), 337
- pressure, fetal heart rate and, computer monitoring of (Crawford), 342
- rupture, incorrectly used seat belt associated with, following vehicular collision (Matthews), 1115 (Comm. in brief)
- systems releasing progesterone, endometrial morphology in women exposed to (Martínez-Manautou et al.), 175
- Uteroplacental respiratory function, use of oxytocin challenge test for antepartum clinical evaluation of (Freeman), 481 (Clinical opinion)
- vasomotor tone, behavior of, during mild hypertension, I. Renal hypertension and pregnancy in sheep (Brinkman, Nuwayhid, and Assali), 931
- Uterus, human, blood flow to, during maternal metabolic acidosis (Blechner, Stenger, and Prystowsky), 789
- relaxing effect of terbutaline on, during term labor (Andersson et al.), 602
- rabbit, effect of progesterone on estrogen receptors in (Martin et al.), 180
- V
- Vaccination, rubella: Fertility control in large-scale vaccination program for postpubertal women (Halstead et al.), 1089
- Vaccine, HPV-77, DE5 rubella virus, late seroconversion following (Wilkins), 998
- Vaginal and cervical epithelia, late effects in, after injections of diethylstilbestrol into neonatal mice (Forsberg), 101
- Vasomotor tone, uteroplacental, behavior of, during mild hypertension, I. Renal hypertension and pregnancy in sheep (Brinkman, Nuwayhid, and Assali), 931
- Vasopressinase, circulating, of pregnancy: Species comparison with radioimmunoassay (Rosenbloom, Sack, and Fisher), 316
- Vehicular collision, incorrectly used seat belt associated with uterine rupture following (Matthews), 1115 (Comm. in brief)
- Virus vaccine, HPV-77, DE5 rubella, late seroconversion following (Wilkins), 998
- Vitamin(s) B₆ supplementation during pregnancy, adequacy of: Maternal and fetal plasma levels of pyridoxal phosphate at term (Cleary, Lumeng, and Li), 25
- oral contraceptives and: Review (Larsson-Cohn), 84
- Volume and sodium concentration studies in 300 saline-induced abortions (Kerenyi and Muznai), 590
- Vulvar basal cell carcinoma with metastasis: Case report (Jimenez, Fenoglio, and Richart), 285 (Comm. in brief)
- lesions, all, should be biopsied (Goldstein and Kent), 173
- W
- Water intoxication associated with oxytocin administration during saline-induced abortion (Lauersen and Birnbaum), 2
- Z
- Zatuchni-Andros Prognostic Scoring Index, six-year prospective study of term breech deliveries utilizing (Bird and McElin), 551

Subject index*

A

- Abdominal fetus following induced abortion (Silverman and Ryden), 791 (Comm. in brief)
 hysterectomy for surgical sterilization in mentally retarded: Review of parental opinion (Wheless), 872
 pregnancy with toxemia, plasma renin and aldosterone in (Bachler et al.), 545
- Abortion(s), induced, abdominal fetus following (Silverman and Ryden), 791 (Comm. in brief)
 reduction of cervical resistance by prostaglandin suppositories prior to dilatation for (Dingfelder et al.), 25
 legal guidelines for performance of (Hirsh), 679 (Clinical opinion)
 mid-trimester, induced by intravaginal administration of prostaglandin E₂ suppositories (Lauersen, Secher, and Wilson), 947
 performed for genetic indication, psychological sequelae of (Blumberg, Golbus, and Hanson), 799
- Acid-base balance, maternal and fetal, placental transport of alcohol and its effect on (Mann et al.), 837
 levels, fetal bile, in pregnancies complicated by maternal intrahepatic cholestasis (Laatikainen), 852
 supplement, folic, effect of, on birth weights of infants (Iyengar and Rajalakshmi), 332
- Actinomycin D, effect of, on estrogen-induced uterine blood flow (Resnik et al.), 273
- Addicted, drug-, women, multiple births in (Rementería, Janakammal, and Hollander), 958
- Adenocarcinoma, advanced ovarian, sequential therapy for: Operation, chemotherapy, second-look laparotomy, and radiation therapy (Piver et al.), 355
 endometrial, changing patterns in (Quint), 498
 of uterine cervix (Rutledge et al.), 236
- Adrenal and ovarian vein androgen levels and laparoscopic findings in hirsute women (Northrop et al.), 192
 posterior mediastinum, and brain, endometrial carcinoma with predominant clear-cell pattern with metastases to (Nakano and Schoene), 529 (Comm. in brief)
- Adrenocortical insufficiency, possible, in postmature neonates (Nwosu et al.), 969
- Alcohol, effect of, on fetal cerebral function and metabolism (Mann et al.), 845
 placental transport of, and its effect on maternal and fetal acid-base balance (Magn et al.), 837
- Aldosterone, plasma renin and, in abdominal pregnancy with toxemia (Bachler et al.), 545
- Alkaline phosphatase, leukocyte, during labor (Sadovsky et al.), 264 (Comm. in brief)
- Amenorrhea and galactorrhea: Results of therapy with 2-Brom- α -ergocryptine (CB-154) (Lloyd, Josimovich, and Archer), 85
- Aminopeptidase, cystine, and leucine aminopeptidase of choriocarcinoma cells grown in culture (Ota, Chen, and Robinson), 698
- Amnii, liquor, recognition of meconium staining of, at amniocopy (Munday and Hamlett), 732
- Amniocentesis, suprapubic vs. periumbilical (Gordon and Deukmedjian), 287
- Amniocopy, recognition of meconium staining of liquor amnii at (Munday and Hamlett), 732
- Amniotic fluid, bacterial growth inhibition by. III. Demonstration of variability of bacterial growth inhibition by amniotic fluid with new plate-count technique (Schlievert et al.), 809

Amniotic fluid, bacterial growth inhibition by—Cont'd

- IV. Studies on nature of bacterial inhibition with use of plate-count determinations (Schlievert et al.), 814
 bubble stability, L/S ratio, and creatinine concentration, use of, in assessment of fetal maturity (Olson et al.), 755
 creatinine in pregnancies complicated by diabetes (Cassady et al.), 13
 foam test, L/S ratio, and total phospholipids in evaluation of fetal lung maturity (Caspi, Schreyer, and Tamir), 323
 glucose: Maternal, fetal, and neonatal correlation (Wood and Sherline), 151
 human, identification of Tamm-Horsfall urinary glycoprotein in (Ross et al.), 790 (Comm. in brief)
 relationship between cortisol and lecithin/sphingomyelin ratios in (Sivakumaran et al.), 291
 lecithin-sphingomyelin ratio, changes in, following maternal dexamethasone administration (Caspi et al.), 327
 in complicated pregnancies (Dyson, Blake, and Cassady), 772
 other phospholipid values of, lecithin/sphingomyelin ratio of Gluck and, comparison between (Gebhardt and Beintema), 734
 surface properties of, in normal pregnancy (Müller-Tyl et al.), 295
 and lung fluids of fetal lambs, transversal and longitudinal lecithin-sphingomyelin ratios in (Rethmeier and Egberts), 593
- Amputation, traumatic cervical: Complication of cervical cryosurgery (Levin), 785 (Comm. in brief)
- Amylase changes, serum, during pregnancy (Kaiser, Berk, and Fridhandler), 283
- Anaerobic infections of female genital tract (Sweet), 891 (Current developments)
- Androgen levels, adrenal and ovarian vein, and laparoscopic findings in hirsute women (Northrop et al.), 192
- Anorexia nervosa, successful induction of follicular maturation and ovulation by prolonged treatment with LH-releasing hormone in women with (Nillius, Fries, and Wide), 921
- Anovulation, management of infertility resulting from (Jewelewicz), 909 (Clinical opinion)
- Anterior pituitary, electron microscopy of, changes in LH-releasing hormone content of hypothalamus and, after prostaglandin E₂ injection in rats (Sato et al.), 637
- Antibodies to spermatozoa. V. Antibody activity in human cervical mucus (Shulman and Friedman), 101
- Antioviulatory potency, II. Comparative studies of ethynyl estrogens used in oral contraceptives (Goldzieher et al.), 619
- Appendix, Crohn's disease of, granulomatous oophoritis and salpingitis associated with (Wlodarski and Trainer), 527 (Comm. in brief)
 ruptured, in pregnancy (Burkman and Friedlander), 265 (Comm. in brief)
- Arrhythmia, fetal ventricular, intrauterine diagnosis and control of, during labor (Eibschitz et al.), 597
- Artificial insemination with donor semen, current status of (Goss), 246
- Asphyxia, fetal, maternal psychological stress and: Study in monkey (Myers), 47
- Aspiration curettage, diagnostic, as outpatient procedure, assessment of (Liu et al.), 106
 fine-needle, of breast in obstetrics and gynecology hospital (Bibbo and Zuspan), 525 (Comm. in brief)
 meconium, tracheal suction in (Ting and Brady), 767
- Assays, microbiologic and radioisotopic, for serum vitamin B₁₂ during pregnancy, comparison of results of (Green, Colman, and Metz), 21

*May 1, 1-138; May 15, 139-266; June 1, 267-418; June 15, 419-544; July 1, 545-678; July 15, 679-798; August 1, 799-908; August 15, 909-1014.

B

- B, group, streptococcal colonization in pregnant women, influence of advancing gestation on (Baker, Barrett, and Yow), 820
- B₁₂, serum vitamin, during pregnancy, comparison of results of microbiologic and radioisotopic assays for (Green, Colman, and Metz), 21
- Bacterial flora of cervix from 100 prehisterectomy patients (Ohm and Galask), 683
- growth inhibition by amniotic fluid. III. Demonstration of variability of bacterial growth inhibition by amniotic fluid with new plate-count technique (Schlievert et al.), 809
- IV. Studies on nature of bacterial inhibition with use of plate-count determinations (Schlievert et al.), 814
- Bacteriology of acute pelvic inflammatory disease (Chow et al.), 876
- Base, acid-, balance, maternal and fetal, placental transport of alcohol and its effect on (Mann et al.), 837
- Benign mixed mesodermal tumor of uterus presenting at delivery (Burrows and Stroup), 531 (Comm. in brief)
- Bile acid levels, fetal, in pregnancies complicated by maternal intrahepatic cholestasis (Laatikainen), 852
- Binding, 17 β -estradiol, in rabbit Fallopian tube, physiologic significance of (Clemens et al.), 113
- thyroxine-, globulin deficiency and oligomenorrhea, study of kindred with (Wallace, Kapoor, and Veleanu), 79
- Biodegradable polylactate as steroid-releasing polymer: Intrauterine administration of *d*-norgestrel (Nilsson et al.), 90
- Biology of carcinoma of cervix, observations on model of: Poor fit between observation and theory (Coppleson and Brown), 127 (Current developments)
- Biopsy, directed punch, conization and colposcopic grading, correlation between (Boelter and Newman), 945
- endometrial, dating (Noyes, Hertig, and Rock), 262 (Classic pages)
- Biparietal diameter, fetal crown-rump length and, in second trimester of pregnancy (Berger, Edelman, and Kerenyi), 9
- of skull and fetal weight in second trimester: Allometric relationship (Bartolucci), 439
- Birth(s), multiple, in drug-addicted women (Rementería, Janakamall, and Hollander), 958
- Birth weights of infants, effect of folic acid supplement on (Iyengar and Rajalakshmi), 332
- Blast transformation of peripheral leukocytes, depression of, by plasma from pregnant women (Jha, Talwar, and Hingorani), 965
- Blood flow, estrogen-induced uterine, effect of actinomycin D on (Resnik et al.), 273
- responses, regional, uterine contractility and, to oxytocin and prostaglandin E₂ in pregnant rhesus monkeys (Novy, Thomas, and Lees), 419
- peripheral, of pregnant women, increase in IgM-bearing lymphocytes in (Loke, Brook, and Allen), 561
- Books received, 266, 544, 798, 994
- Box, Ramathibodi: Simple and inexpensive teaching aid for laparoscopy (Chaturachinda), 992 (Comm. in brief)
- Bradycardia, prolonged fetal, with recovery—its significance and outcome (Tejani et al.), 975
- Brain, adrenal, and posterior mediastinum, endometrial carcinoma with predominant clear-cell pattern with metastases to (Nakano and Schoene), 529 (Comm. in brief)
- Breast, fine-needle aspiration of, in obstetrics and gynecology hospital (Bibbo and Zuspan), 525 (Comm. in brief)
- Brom- α -ergocryptine (CB-154), 2-, results of therapy with: Amenorrhea and galactorrhea (Lloyd, Josimovich, and Archer), 85
- Bubble stability, I/S ratio, and creatinine concentration, amniotic fluid, use of, in assessment of fetal maturity (Ohon et al.), 755

C

- Calcitonin effects in primate pregnancy (Reynolds, Pitkin, and Wezeman), 212

- Carcinoma of cervix, observations on model of biology of: Poor fit between observation and theory (Coppleson and Brown), 127 (Current developments)
- treatment of, with radical surgery, role of ovarian conservation in (Webb), 476
- endometrial, with predominant clear-cell pattern with metastases to adrenal, posterior mediastinum, and brain (Nakano and Schoene), 529 (Comm. in brief)
- vaginal, management of, after hysterectomy (Usherwood), 352
- Cardiac performance during pregnancy: Serial evaluation using external systolic time intervals (Liebson et al.), 1
- Catecholamines and estradiol, interactions in uptake between, in human uterus (Pedroza-García et al.), 96
- CB-154 (2-Brom- α -ergocryptine), results of therapy with: Amenorrhea and galactorrhea (Lloyd, Josimovich, and Archer), 85
- Cell(s), choriocarcinoma, grown in culture, cystine aminopeptidase and leucine aminopeptidase of (Ota, Chen, and Robinson), 698
- clear-, pattern, predominant, endometrial carcinoma with, with metastases to adrenal, posterior mediastinum, and brain (Nakano and Schoene), 529 (Comm. in brief)
- of syphilitic lesion of uterine cervix, intracellular *Treponema pallidum* in (Sykes and Kalan), 361
- Central Association of Obstetricians and Gynecologists, transactions, forty-second annual meeting, 139-260
- Cerebral function and metabolism, fetal, effect of alcohol on (Mann et al.), 845
- manifestations of metastatic trophoblastic disease (Javaheri and Sall), 989 (Comm. in brief)
- Cervical amputation, traumatic: Complication of cervical cryosurgery (Levin), 785 (Comm. in brief)
- cold conization, outpatient, with cryosurgical hemostasis (McDonnell and Stenger), 532 (Comm. in brief)
- mucus, human, antibody activity in, V. Antibodies to spermatozoa (Shulman and Friedman), 101
- structural aspects of (Zaneveld et al.), 650
- resistance, reduction of, by prostaglandin suppositories prior to dilatation for induced abortion (Dingfelder et al.), 25
- Cervicovaginal fistula, term delivery through (Pelosi et al.), 789 (Comm. in brief)
- Cervix, bacterial flora of, from 100 prehisterectomy patients (Ohm and Galask), 683
- carcinoma of, observations on model of biology of: Poor fit between observation and theory (Coppleson and Brown), 127 (Current developments)
- treatment of, with radical surgery, role of ovarian conservation in (Webb), 476
- uterine, adenocarcinoma of (Rutledge et al.), 236
- intracellular *Treponema pallidum* in cells of syphilitic lesion of (Sykes and Kalan), 361
- Cesarean section rates, perinatal mortality and, its effect on, and its complications: Fetal monitoring (Tutera and Newman), 750
- Chemotherapy, second-look laparotomy, radiation therapy, and operation: Sequential therapy for advanced ovarian adenocarcinoma (Piver et al.), 355
- Cholestasis, maternal intrahepatic, fetal bile acid levels in pregnancies complicated by (Laatikainen), 852
- Choriocarcinoma cells grown in culture, cystine aminopeptidase and leucine aminopeptidase of (Ota, Chen, and Robinson), 698
- Chorionic gonadotropin concentrations, maternal serum progesterone and, effects of fetal sex and weight and placental weight on (Spellacy et al.), 278
- Chromatography, plasma fibrinogen, new approach to investigation based on: Association between oral contraceptive use and thromboembolism (Alkjaersig, Fletcher, and Burstein), 199
- Citrate, clomiphene, in suppression of puerperal lactation (Kahir, David, and Kraicer), 570
- Classic pages, 123-126, 261-263, 890, 988
- Clean-catch urine specimens, comparison of methods for collecting, in clinic population of obstetric patients [Chavigny and Moore (Nunnally)], 34

- Clear-cell pattern, predominant, endometrial carcinoma with, with metastases to adrenal, posterior mediastinum, and brain (Nakano and Schoene), 529 (Comm. in brief)
- Clinic population of obstetric patients, comparison of methods for collecting clean-catch urine specimens in [Chavigny and Moore (Nunnally)], 34
- Clinical opinion, 679-682, 909-920
- Clomiphene citrate in suppression of puerperal lactation (Kalir, David, and Kraicer), 570
- Cold conization, outpatient cervical, with cryosurgical hemostasis (McDonnell and Stenger), 532 (Comm. in brief)
- Colon, neonatal perforation of (Georgy and Friedberg), 788 (Comm. in brief)
- Colonization, group B streptococcal, in pregnant women, influence of advancing gestation on (Baker, Barrett, and Yow), 820
- Colpocystography in cases of genital prolapse and urinary stress incontinence in women (Lazarevski et al.), 704
- Colposcopic grading, directed punch biopsy, and conization, correlation between (Boelter and Newman), 945
- Communications in brief, 264-265, 525-534, 783-791, 989-993
- Community hospital, hysterectomy in (Cava), 434
- Complicated by diabetes, amniotic fluid creatinine in pregnancies (Cassady et al.), 13
- by maternal intrahepatic cholestasis, fetal bile acid levels in pregnancies (Laatikainen), 852
- pregnancies, amniotic fluid lecithin/sphingomyelin ratio in (Dyson, Blake, and Cassady), 772
- Complication(s) of cervical cryosurgery: Traumatic cervical amputation (Levin), 785 (Comm. in brief)
- of fetal scalp electrodes: Case report (Turbeville et al.), 530
- its, effect on perinatal mortality and cesarean section rates and: Fetal monitoring (Tutera and Newman), 750
- Compression, mixed cord, fetal heart rate pattern, and relation to abnormal cord position (Goldkrand and Speichinger), 144
- Computer diagnosis of labor progression. VI. Fetal stress and labor in occipitoposterior position (Sokol, Roux, and McCarthy), 253
- Concentration(s), creatinine, bubble stability, L/S ratio, and, amniotic fluid, use of, in assessment of fetal maturity (Olson et al.), 755
- maternal serum progesterone and chorionic gonadotropin, effects of fetal sex and weight and placental weight on (Spellacy et al.), 278
- plasma progesterone, in thyrotoxic women with menstrual disturbance (Akande), 887
- Cone specimens, influence of size of, on postoperative hemorrhage (Rubio, Thomassen, and Kock), 939
- Conization, colposcopic grading, and directed punch biopsy, correlation between (Boelter and Newman), 945
- outpatient cervical cold, with cryosurgical hemostasis (McDonnell and Stenger), 532 (Comm. in brief)
- Conjugated estrogens and hypercoagulability (von Kaulla, Droege-mueller, and von Kaulla), 688
- Contraception, long-term, clinical appraisal of patients following (Keifer and Scott), 446
- oral, and uterine size—ultrasonic study (Piironen and Rauramo), 349
- Contraceptive(s) device, copper-containing intrauterine, effect of, on *Neisseria gonorrhoeae* in vitro (Spence, Stutz, and Panim), 783 (Comm. in brief)
- methods, two, use-effectiveness of, in Navajo population: Problem of program dropouts (Slocumb, Odoroff, and Kunitz), 717
- oral, comparative studies of ethynyl estrogens used in. I. Endometrial response (Goldzieher et al.), 615
- II. Antiovolatory potency (Goldzieher et al.), 619
- III. Effect on plasma gonadotropins (Goldzieher et al.), 625
- use, oral, and thromboembolism, association between: New approach to investigation based on plasma fibrinogen chromatography (Alkjaersig, Fletcher, and Burstein), 199
- Contractility, uterine, and regional blood flow responses to oxytocin and prostaglandin E_2 in pregnant rhesus monkeys (Novy, Thomas, and Lees), 419
- Copper-containing intrauterine contraceptive device, effect of, on *Neisseria gonorrhoeae* in vitro (Spence, Stutz, and Panim), 783 (Comm. in brief)
- Cord compression, mixed, fetal heart rate pattern, and relation to abnormal cord position (Goldkrand and Speichinger), 144
- Correspondence, 535-543, 792-797, 902-906
- Cortisol and lecithin/sphingomyelin ratios, relationship between, in human amniotic fluid (Sivakumaran et al.), 291
- Cranial defects, discordant severe, in monozygous twins (Osathanondh, Driscoll, and Naftolin), 301
- Creatinine, amniotic fluid, in pregnancies complicated by diabetes (Cassady et al.), 13
- concentration, bubble stability, L/S ratio, and, amniotic fluid, use of, in assessment of fetal maturity (Olson et al.), 755
- Crohn's disease of appendix, granulomatous oophoritis and salpingitis associated with (Wlodarski and Trainer), 527 (Comm. in brief)
- and pregnancy (Martimbeau, Welch, and Weiland), 746
- Crown-rump length, fetal, and biparietal diameter in second trimester of pregnancy (Berger, Edelman, and Kerenyi), 9
- Cryosurgery, cervical, complication of: Traumatic cervical amputation (Levin), 785 (Comm. in brief)
- Cryosurgical hemostasis, outpatient cervical cold conization with (McDonnell and Stenger), 532 (Comm. in brief)
- Culdoscopic ligation as outpatient procedure (Cheng et al.), 109
- Culture, cystine aminopeptidase and leucine aminopeptidase of choriocarcinoma cells grown in (Ota, Chen, and Robinson), 698
- Curettage, diagnostic aspiration, as outpatient procedure, assessment of (Liu et al.), 106
- Current developments, 127-136, 368-400, 669-676, 891-901
- Cystine aminopeptidase and leucine aminopeptidase of choriocarcinoma cells grown in culture (Ota, Chen, and Robinson), 698

D

- Death, unforeseen sudden intrapartum fetal, in monitored labor (Hayashi and Fox), 786 (Comm. in brief)
- Defects, discordant severe cranial, in monozygous twins (Osathanondh, Driscoll, and Naftolin), 301
- neural tube, prenatal detection of (Milunsky et al.), 313
- Delivery, benign mixed mesodermal tumor of uterus presenting at (Burrows and Stroup), 531 (Comm. in brief)
- term, through cervicovaginal fistula (Pelosi et al.), 789 (Comm. in brief)
- DES syndrome, squamous neoplasia of vagina related to (Fetherston), 176
- Device, copper-containing intrauterine contraceptive, effect of, on *Neisseria gonorrhoeae* in vitro (Spence, Stutz, and Panim), 783 (Comm. in brief)
- fluid-filled intrauterine: Initial clinical trials (Margolis), 470
- Dexamethasone administration, maternal, changes in amniotic fluid lecithin-sphingomyelin ratio following (Caspi et al.), 372
- Diabetes, amniotic fluid creatinine in pregnancies complicated by (Cassady et al.), 13
- Diabetic pregnancy, metabolic control in (Persson and Lunell), 737
- Diagnosis, computer, of labor progression. VI. Fetal stress and labor in occipitoposterior position (Sokol, Roux, and McCarthy), 253
- differential, pathophysiology, and management: Urinary stress incontinence (Green), 368 (Current developments)
- intrauterine, and control of fetal ventricular arrhythmia during labor (Eibschitz et al.), 597
- Diagnostic adjunct, useful, in gynecology: Hysteroscopy (Valle and Sciarra), 230
- aspiration curettage as outpatient procedure, assessment of (Liu et al.), 106
- Diameter, biparietal, fetal crown-rump length and, in second trimester of pregnancy (Berger, Edelman, and Kerenyi), 9
- of skull and fetal weight in second trimester: Allometric relationship (Bartolucci), 439

- Diethylstilbestrol (DES) syndrome, squamous neoplasia of vagina related to (Fetherston), 176
- Differential diagnosis, pathophysiology, and management: Urinary stress incontinence (Green), 368 (Current developments)
- Dilatation for induced abortion, reduction of cervical resistance by prostaglandin suppositories prior to (Dingfelder et al.), 25
- Disease, acute pelvic inflammatory, bacteriology of (Chow et al.), 876
- Crohn's, of appendix, granulomatous oophoritis and salpingitis associated with (Wlodarski and Trainer), 527 (Comm. in brief)
- and pregnancy (Martimbeau, Welch, and Weiland), 746
- metastatic trophoblastic, cerebral manifestations of (Javaheri and Sall), 989 (Comm. in brief)
- thyroid, in pregnancy (Prout), 669 (Current developments)
- Donor semen, artificial insemination with, current status of (Goss), 246
- Drug-addicted women, multiple births in (Rementeria, Janakammal, and Hollander), 958
- ### E
- E₂, prostaglandin, injection in rats, changes in LH-releasing hormone content of hypothalamus and electron microscopy of anterior pituitary after (Sato et al.), 637
- oxytocin and, in pregnant rhesus monkeys, uterine contractility and regional blood flow responses to (Novy, Thomas, and Lees), 419
- suppositories, mid-trimester abortion induced by intravaginal administration of (Lauersen, Secher, and Wilson), 947
- Ectopic pregnancy, repeat: Study of 123 consecutive cases (Hallatt), 520
- Electrodes, fetal scalp, complications of: Case report (Turbeville et al.), 530
- Electron microscopy of anterior pituitary, changes in LH-releasing hormone content of hypothalamus and, after prostaglandin E₂ injection in rats (Sato et al.), 637
- of placenta and related structures of marmoset (Wynn, Richards, and Harris), 60
- scanning, human endometrial kinetics as observed by (Hafez, Ludwig, and Metzger), 929
- placental villi from early and late in gestation (King and Menton), 824
- Endocervical smears, prenatal sex detection with: Successful results utilizing Y-body fluorescence (Rhine et al.), 155
- Endometrial adenocarcinoma, changing patterns in (Quint), 498
- biopsy, dating (Noyes, Hertig, and Rock), 262 (Classic pages)
- carcinoma with predominant clear-cell pattern with metastases to adrenal, posterior mediastinum, and brain (Nakano and Schoene), 529 (Comm. in brief)
- fluid kinetics, human, as observed by scanning electron microscopy (Hafez, Ludwig, and Metzger), 929
- response, I. Comparative studies of ethynyl estrogens used in oral contraceptives (Goldzieher et al.), 615
- Endometriosis, pelvic, and ureteral obstruction (Langmade), 463
- Endometrium, human, prostaglandins in (Gr  en and Hagenfeldt), 611
- secretory, was found, review of menstrual disorders in which (Taw), 490
- Ergocryptine (CB-154), 2-Brom-  , results of therapy with: Amenorrhea and galactorrhea (Lloyd, Josimovich, and Archer), 85
- Erythrocytosis due to erythropoietin-producing uterine fibromyoma (Weiss, Aldor, and Aboulafia), 358
- Erythropoietin-producing uterine fibromyoma, erythrocytosis due to (Weiss, Aldor, and Aboulafia), 358
- Estradiol, catecholamines and, interactions in uptake between, in human uterus (Pedroza-Garc  a et al.), 96
- 17  , binding in rabbit Fallopian tube, physiologic significance of (Clemens et al.), 113
- Estrogen(s), conjugated, and hypercoagulability (von Kaulla, Droege-mueller, and von Kaulla), 688
- ethynyl, used in oral contraceptives, comparative studies of. I. Endometrial response (Goldzieher et al.), 615
- II. Antiovolatory potency (Goldzieher et al.), 619
- III. Effect on plasma gonadotropins (Goldzieher et al.), 625
- Estrogen(s)—Cont'd
- induced uterine blood flow, effect of actinomycin D on (Resnik et al.), 273
- plasma, in euthyroid and thyrotoxic women (Akande), 880
- Ethynyl estrogens used in oral contraceptives, comparative studies of. I. Endometrial response (Goldzieher et al.), 615
- II. Antiovolatory potency (Goldzieher et al.), 619
- III. Effect on plasma gonadotropins (Goldzieher et al.), 625
- Euthyroid and thyrotoxic women, plasma estrogens in (Akande), 880
- ### F
- Fallopian tube(s) human, spontaneous motility and distribution of prostaglandins in different segments of (Vastik-Fernandez et al.), 663
- rabbit, physiologic significance of 17  -estradiol binding in (Clemens et al.), 113
- Fetal acid-base balance, maternal and, placental transport of alcohol and its effect on (Mann et al.), 837
- asphyxia, maternal psychological stress and: Study in monkey (Myers), 47
- bile acid levels in pregnancies complicated by maternal intrahepatic cholestasis (Laatikainen), 852
- bradycardia, prolonged, with recovery—its significance and outcome (Tejani et al.), 975
- cerebral function and metabolism, effect of alcohol on (Mann et al.), 845
- crown-rump length and biparietal diameter in second trimester of pregnancy (Berger, Edelman, and Kerenyi), 9
- death, unforeseen sudden intrapartum, in monitored labor (Hayashi and Fox), 786 (Comm. in brief)
- glomerular filtration rate, maturational changes in (Robillard et al.), 601
- heart rate pattern, "mixed cord compression," and relation to abnormal cord position (Goldkrand and Speichinger), 144
- lambs, transversal and longitudinal lecithin-sphingomyelin ratios in amniotic and lung fluids of (Rethmeier and Egberts), 593
- lung maturity, amniotic fluid foam test, L/S ratio, and total phospholipids in evaluation of (Caspi, Schreyer, and Tamir), 323
- maturity, use of amniotic fluid bubble stability, L/S ratio, and creatinine concentration in assessment of (Olson et al.), 755
- monitoring: Its effect on perinatal mortality and cesarean section rates and its complications (Tutera and Newman), 750
- neonatal value of (Hon, Zannini, and Quilligan), 508
- neonatal, and maternal correlation: Amniotic fluid glucose (Wood and Sherline), 151
- scalp electrodes, complications of: Case report (Turbeville et al.), 530
- sex and weight and placental weight, effects of, on maternal serum progesterone and chorionic gonadotropin concentrations (Spellacy et al.), 278
- stress and labor in occipitoposterior position, VI. Computer diagnosis of labor progression (Sokol, Roux, and McCarthy), 253
- from methadone withdrawal (Zuspan et al.), 43
- ventricular arrhythmia, intrauterine diagnosis and control of, during labor (Eibschitz et al.), 597
- weight, biparietal diameter of skull and, in second trimester: Allometric relationship (Bartolucci), 439
- Fetus(es), abdominal, following induced abortion (Silverman and Ryden), 791 (Comm. in brief)
- coexistent, hydatidiform mole with (Jones and Lauersen), 267
- lamb, transfusion, placenta to, in utero during acute hypoxia (Oh et al.), 316
- primate, response of, to intra-amniotic saline injection (Comas-Urrutia, Adamsons, and Myers), 549
- transfer of lidocaine across sheep placenta to (Morishima et al.), 581
- young human, osseous manifestations of gestational rubella in (Sekeles and Ornoy), 307
- Fibrinogen chromatography, plasma, new approach to investigation based on: Association between oral contraceptive use and thromboembolism (Alkjaersig, Fletcher, and Burstein), 199

- Fibromyoma, erythropoietin-producing uterine, erythrocytosis due to (Weiss, Aldor, and Aboulafia), 358
- Filtration rate, fetal glomerular, maturational changes in (Robillard et al.), 601
- Fine-needle aspiration of breast in obstetrics and gynecology hospital (Bibbo and Zuspan), 525 (Comm. in brief)
- Fistula, cervicovaginal, term delivery through (Pelosi et al.), 789 (Comm. in brief)
- Flora, bacterial, of cervix from 100 pre hysterectomy patients (Ohm and Galask), 683
- vaginal, perinatal infection and (Beargie et al.), 31
- Flow, estrogen-induced uterine blood, effect of actinomycin D on (Resnik et al.), 273
- responses, regional blood, uterine contractility and, to oxytocin and prostaglandin E_2 in pregnant rhesus monkeys (Novy, Thomas, and Lees), 419
- Fluid(s), amniotic, bacterial growth inhibition by. III. Demonstration of variability of bacterial growth inhibition by amniotic fluid with new plate-count technique (Schlievert et al.), 809
- IV. Studies on nature of bacterial inhibition with use of plate-count determinations (Schlievert et al.), 814
- bubble stability, L/S ratio, and creatinine concentration, use of, in assessment of fetal maturity (Olson et al.), 755
- foam test, L/S ratio, and total phospholipids in evaluation of fetal lung maturity (Caspi, Schreyer, and Tamir), 323
- and lung, of fetal lambs, transversal and longitudinal lecithin-sphingomyelin ratios in (Rethmeier and Egberts), 593
- other phospholipid values of, lecithin/sphingomyelin ratio of Gluck and, comparison between (Gebhardt and Beintema), 734
- surface properties of, in normal pregnancy (Müller-Tyl et al.), 295
- creatinine, amniotic, in pregnancies complicated by diabetes (Cassady et al.), 13
- filled intrauterine device: Initial clinical trials (Margolis), 470
- glucose, amniotic: Maternal, fetal, and neonatal correlation (Wood and Sherline), 151
- human amniotic, identification of Tamm-Horsfall urinary glycoprotein in (Ross et al.), 790 (Comm. in brief)
- relationship between cortisol and lecithin/sphingomyelin ratios in (Sivakumaran et al.), 291
- kinetics, human endometrial, as observed by scanning electron microscopy (Hafez, Ludwig, and Metzger), 929
- lecithin-sphingomyelin ratio, amniotic, changes in, following maternal dexamethasone administration (Caspi et al.), 327
- in complicated pregnancies (Dyson, Blake, and Cassady), 772
- Fluorescence, Y-body, successful results utilizing: Prenatal sex detection with endocervical smears (Rhine et al.), 155
- Foam test, L/S ratio, and total phospholipids, amniotic fluid, in evaluation of fetal lung maturity (Caspi, Schreyer, and Tamir), 323
- Folic acid supplement, effect of, on birth weights of infants (Iyengar and Rajalakshmi), 332
- Follicular maturation and ovulation, successful induction of, by prolonged treatment with LH-releasing hormone in women with anorexia nervosa (Nillius, Fries, and Wide), 921
- Forbes, Hooker-, bioassay, development of (Forbes), 124 (Classic pages)

G

- Galactorrhea, amenorrhea and: Results of therapy with 2-Brom-ergocryptine (CB-154) (Lloyd, Josimovich, and Archer), 85
- Gastrin, immunoreactive, and gestation (Rooney et al.), 834
- Genetic indication, psychological sequelae of abortion performed for (Blumberg, Golbus, and Hanson), 799
- Genital prolapse and urinary stress incontinence in women, colpocystography in cases of (Lazarevski et al.), 704
- tract, female, anaerobic infections of (Sweet), 891 (Current developments)
- Gestation, advancing, influence of, on group B streptococcal colonization in pregnant women (Baker, Barrett, and Yow), 820

Gestation—Cont'd

- human placental villi from early and late in, scanning electron microscopy of (King and Menton), 824
- relationship of newly described acute-phase protein to (Knox et al.), 935
- immunoreactive gastrin and (Rooney et al.), 834
- normal, changes in transfer of nutrients across placenta during, in rat (Rosso), 761
- Gestational rubella, osseous manifestations of, in young human fetuses (Skeles and Ornoy), 307
- Globulin deficiency, thyroxine-binding, and oligomenorrhea, study of kindred with (Wallace, Kapoor, and Veleanu), 79
- Glomerular filtration rate, fetal, maturational changes in (Robillard et al.), 601
- Gluck, lecithin/sphingomyelin ratio of, and other phospholipid values of amniotic fluid, comparison between (Gebhardt and Beintema), 734
- Glucose, amniotic fluid: Maternal, fetal, and neonatal correlation (Wood and Sherline), 151
- tolerance, abnormal, in pregnancy, effect of, on infant mortality rate and morbidity (Haworth and Dilling), 555
- Glutamate and its metabolites, placental transfer of, in primate (Stegink et al.), 70
- Glycoprotein, Tamm-Horsfall urinary, identification of, in human amniotic fluid (Ross et al.), 790 (Comm. in brief)
- Gonadotropin(s) concentrations, chorionic, maternal serum progesterone and, effects of fetal sex and weight and placental weight on (Spellacy et al.), 278
- plasma, effect on, III. Comparative studies of ethynyl estrogens used in oral contraceptives (Goldzieher et al.), 625
- Gonococcal ophthalmia neonatorum (Pierog et al.), 589
- Gonorrhoeae*, *Neisseria*, effect of copper-containing intrauterine contraceptive device on, in vitro (Spence, Stutz, and Paniom), 783 (Comm. in brief)
- Granulomatous oophoritis and salpingitis associated with Crohn's disease of appendix (Wlodarski and Trainer), 527 (Comm. in brief)
- Growth inhibition, bacterial, by amniotic fluid. III. Demonstration of variability of bacterial growth inhibition by amniotic fluid with new plate-count technique (Schlievert et al.), 809
- IV. Studies on nature of bacterial inhibition with use of plate-count determinations (Schlievert et al.), 814
- Gynecology hospital, obstetrics and, fine-needle aspiration of breast in (Bibbo and Zuspan), 525 (Comm. in brief)
- useful diagnostic adjunct in: Hysteroscopy (Valle and Sciarra), 230

H

- Heart rate pattern, fetal, "mixed cord compression," and relation to abnormal cord position (Goldkrand and Speichinger), 144
- Hemorrhage, postoperative, influence of size of cone specimens on (Rubio, Thomassen, and Kock), 939
- Hemostasis, cryosurgical, outpatient cervical cold conization with (McDonnell and Stenger), 532 (Comm. in brief)
- Hirsute women, adrenal and ovarian vein androgen levels and laparoscopic findings in (Northrop et al.), 192
- Hooker-Forbes bioassay, development of (Forbes), 124 (Classic pages)
- Hormone, LH-releasing, successful induction of follicular maturation and ovulation by prolonged treatment with, in women with anorexia nervosa (Nillius, Fries, and Wide), 921
- luteinizing, (LH)-releasing hormone content of hypothalamus, changes in, and electron microscopy of anterior pituitary after prostaglandin E_2 injection in rats (Sato et al.), 637
- Horsfall, Tamm-, urinary glycoprotein, identification of, in human amniotic fluid (Ross et al.), 790 (Comm. in brief)
- Hospital, community, hysterectomy in (Cava), 434
- obstetrics and gynecology, fine-needle aspiration of breast in (Bibbo and Zuspan), 525 (Comm. in brief)
- Hydatidiform mole with coexistent fetus (Jones and Lauersen), 267
- Hypercoagulability, conjugated estrogens and (von Kaulla, Droegemueller, and von Kaulla), 688

- Hypothalamic-pituitary-ovarian function, effects of 0.5 mg. of lynes-trenol daily on (Friedrich et al.), 642
- Hypothalamus, changes in LH-releasing hormone content of, and electron microscopy of anterior pituitary after prostaglandin E₂ injection in rats (Sato et al.), 637
and reproduction (Schally, Kastin, and Arimura), 857
- Hypoxia, acute, placenta to lamb fetus transfusion in utero during (Oh et al.), 316
- Hysterectomy, abdominal, for surgical sterilization in mentally retarded: Review of parental opinion (Wheless), 872
in community hospital (Cava), 434
management of vaginal carcinoma after (Usherwood), 352
vaginal, III. Female sterilization (Laros and Work), 693
prophylactic use of Keflex and Keflin in (Bivens, Neufeld, and McCarty), 169
- Hysteroscopy: Useful diagnostic adjunct in gynecology (Valle and Sciarra), 230

I

- Idiopathic thrombocytopenic purpura, management of, during pregnancy (Laros and Sweet), 182
- IgM-bearing lymphocytes, increase in, in peripheral blood of pregnant women (Loke, Brook, and Allen), 561
- Immunoglobulin M (IgM)-bearing lymphocytes, increase in, in peripheral blood of pregnant women (Loke, Brook, and Allen), 561
- Immunologic aspects of term pregnancy toxemia (Yang, Kleinman, and Wei), 727
- Immunoreactive gastrin and gestation (Rooney et al.), 834
- Incarceration, uterine prolapse with (Chambers), 459
- Incontinence, recurrent stress urinary, repeat Marshall-Marchetti procedure for (Lee and Symmonds), 219
urinary stress: Differential diagnosis, pathophysiology, and management (Green), 368 (Current developments)
genital prolapse and, in women, colpocystography in cases of (Lazarevski et al.), 704
- Induced abortion, abdominal fetus following (Silverman and Ryden), 791 (Comm. in brief)
reduction of cervical resistance by prostaglandin suppositories prior to dilatation for (Dingfelder et al.), 25
estrogen-, uterine blood flow, effect of actinomycin D on (Resnik et al.), 273
mid-trimester abortion, by intravaginal administration of prostaglandin E₂ suppositories (Lauersen, Secher, and Wilson), 947
- Induction, successful, of follicular maturation and ovulation by prolonged treatment with LH-releasing hormone in women with anorexia nervosa (Nillius, Fries, and Wide), 921
- Infant(s), effect of folic acid supplement on birth weights of (Iyengar and Rajalakshmi), 332
mortality rate and morbidity, effect of abnormal glucose tolerance in pregnancy on (Haworth and Dilling), 555
- Infection(s), anaerobic, of female genital tract (Sweet), 891 (Current developments)
opportunistic mycotic, in pregnant women (Purtilo), 607
perinatal, and vaginal flora (Beargie et al.), 31
- Infertility resulting from anovulation, management of (Jewelewicz), 908 (Clinical opinion)
- Inflammatory disease, acute pelvic, bacteriology of (Chow et al.), 876
- Inhibition, bacterial growth, by amniotic fluid. III. Demonstration of variability of bacterial growth inhibition by amniotic fluid with new plate-count technique (Schlievert et al.), 809
IV. Studies on nature of bacterial inhibition with use of plate-count determinations (Schlievert et al.), 814
- Injection, intra-amniotic saline, response of primate fetus to (Comas-Urrutia, Adamsons, and Myers), 549
prostaglandin E₂, in rats, changes in LH-releasing hormone content of hypothalamus and electron microscopy of anterior pituitary after (Sato et al.), 637
- Insemination, artificial, with donor semen, current status of (Goss), 246

- Insulin, influence of pregnancy on kinetics of (Bellmann and Hartmann), 829
- Intra-amniotic saline injection, response of primate fetus to (Comas-Urrutia, Adamsons, and Myers), 549
- Intracellular *Treponema pallidum* in cells of syphilitic lesion of uterine cervix (Sykes and Kalan), 361
- Intrahepatic cholestasis, maternal, fetal bile acid levels in pregnancies complicated by (Laatikainen), 852
- Intrapartum fetal death, unforeseen sudden, in monitored labor (Hayashi and Fox), 786 (Comm. in brief)
- Intrauterine administration of *d*-norgestrel: Biodegradable polylactate as steroid-releasing polymer (Nilsson et al.), 90
contraceptive device, copper-containing, effect of, on *Neisseria gonorrhoeae* in vitro (Spence, Stutz, and Paniom), 783 (Comm. in brief)
device, fluid-filled: Initial clinical trials (Margolis), 470
diagnosis and control of fetal ventricular arrhythmia during labor (Eibschitz et al.), 597
- Intravaginal administration of prostaglandin E₂ suppositories, mid-trimester abortion induced by (Lauersen, Secher, and Wilson), 947
- Intravenous leiomyomatosis, pregnancy complicated by (Miller), 485
- Items, 137-138, 401-418, 677-678, 907-908

K

- Keflex and Keflin, prophylactic use of, in vaginal hysterectomy (Bivens, Neufeld, and McCarty), 169
- Keflin, Keflex and, prophylactic use of, in vaginal hysterectomy (Bivens, Neufeld, and McCarty), 169
- Kindred with thyroxine-binding globulin deficiency and oligomenorrhea, study of (Wallace, Kapoor, and Veleanu), 79
- Kinetics, human endometrial fluid, as observed by scanning electron microscopy (Hafez, Ludwig, and Metzger), 929
of insulin, influence of pregnancy on (Bellmann and Hartmann), 829

L

- Labor, active management of (Beazley), 161
intrauterine diagnosis and control of fetal ventricular arrhythmia during (Eibschitz et al.), 597
leukocyte alkaline phosphatase during (Sadovsky et al.), 264 (Comm. in brief)
monitored, unforeseen sudden intrapartum fetal death in (Hayashi and Fox), 786 (Comm. in brief)
progression, computer diagnosis of. VI. Fetal stress and labor in occipitoposterior position (Sokol, Roux, and McCarthy), 253
significance of meconium during (Miller et al.), 573
- Lactation, puerperal, clomiphene citrate in suppression of (Kalir, David, and Kraicer), 570
- Laparoscopic findings, adrenal and ovarian vein androgen levels and, in hirsute women (Northrop et al.), 192
- Laparoscopy, simple and inexpensive teaching aid for: Ramathibodi box (Chaturachinda), 992 (Comm. in brief)
- Laparotomy, second-look, radiation therapy, operation, and chemotherapy: Sequential therapy for advanced ovarian adenocarcinoma (Piver et al.), 355
- Lecithin-sphingomyelin ratio(s), amniotic fluid, changes in, following maternal dexamethasone administration (Caspi et al.), 327
in complicated pregnancies (Dyson, Blake, and Cassady), 772
cortisol and, relationship between, in human amniotic fluid (Sivakumaran et al.), 291
creatinine concentration, and bubble stability, amniotic fluid, use of, in assessment of fetal maturity (Olson et al.), 755
of Gluck and other phospholipid values of amniotic fluid, comparison between (Gebhardt and Beintema), 734
total phospholipids, and foam test, amniotic fluid, in evaluation of fetal lung maturity (Caspi, Schreyer, and Tamir), 323
transversal and longitudinal, in amniotic and lung fluids of fetal lambs (Rethmeier and Egberts), 593
- Legal guidelines for performance of abortions (Hirsh), 679 (Clinical opinion)
- Leiomyomatosis, intravenous, pregnancy complicated by (Miller), 485

- Length, fetal crown-rump, and biparietal diameter in second trimester of pregnancy (Berger, Edelman, and Kerenyi), 9
- Lesion, syphilitic, of uterine cervix, intracellular *Treponema pallidum* in cells of (Sykes and Kalan), 361
- Leucine aminopeptidase, cystine aminopeptidase and, of choriocarcinoma cells grown in culture (Ota, Chen, and Robinson), 698
- Leukocyte(s) alkaline phosphatase during labor (Sadovsky et al.), 264 (Comm. in brief)
- peripheral, depression of blast transformation of, by plasma from pregnant women (Jha, Talwar, and Hingorani), 965
- LH-releasing hormone content of hypothalamus, changes in, and electron microscopy of anterior pituitary after prostaglandin E₂ injection in rats (Sato et al.), 637
- successful induction of follicular maturation and ovulation by prolonged treatment with, in women with anorexia nervosa (Nillius, Fries, and Wide), 921
- Lidocaine, transfer of, across sheep placenta to fetus (Morishima et al.), 581
- Life, abundant (Paalman), 139
- Ligation, culdoscopy, as outpatient procedure (Cheng et al.), 109
- Liquor amnii, recognition of meconium staining of, at amniocentesis (Munday and Hamlett), 732
- Longitudinal lecithin-sphingomyelin ratios, transversal and, in amniotic and lung fluids of fetal lambs (Rethmeier and Egberts), 593
- L/S ratio, creatinine concentration, and bubble stability, amniotic fluid, use of, in assessment of fetal maturity (Olson et al.), 755
- total phospholipids, and foam test, amniotic fluid, in evaluation of fetal lung maturity (Caspi, Schreyer, and Tamir), 323
- Lung fluids, amniotic and, of fetal lambs, transversal and longitudinal lecithin-sphingomyelin ratios in (Rethmeier and Egberts), 593
- maturity, fetal, amniotic fluid foam test, L/S ratio, and total phospholipids in evaluation of (Caspi, Schreyer, and Tamir), 323
- Luteinizing hormone (LH)-releasing hormone content of hypothalamus, changes in, and electron microscopy of anterior pituitary after prostaglandin E₂ injection in rats (Sato et al.), 637
- successful induction of follicular maturation and ovulation by prolonged treatment with, in women with anorexia nervosa (Nillius, Fries, and Wide), 921
- Lymphocytes, IgM-bearing, increase in, in peripheral blood of pregnant women (Loke, Brook, and Allen), 561
- Lynestrenol, effects of 0.5 mg. of, daily on hypothalamic-pituitary-ovarian function (Friedrich et al.), 642
- M
- M, immunoglobulin, (IgM)-bearing lymphocytes, increase in, in peripheral blood of pregnant women (Loke, Brook, and Allen), 561
- Marchetti, Marshall-, procedure, repeat, for recurrent stress urinary incontinence (Lee and Symmonds), 219
- Marshall-Marchetti procedure, repeat, for recurrent stress urinary incontinence (Lee and Symmonds), 219
- Maternal dexamethasone administration, changes in amniotic fluid lecithin-sphingomyelin ratio following (Caspi et al.), 372
- and fetal acid-base balance, placental transport of alcohol and its effect on (Mann et al.), 837
- and neonatal correlation: Amniotic fluid glucose (Wood and Sherline), 151
- intrahepatic cholestasis, fetal bile acid levels in pregnancies complicated by (Laatikainen), 852
- psychological stress and fetal asphyxia: Study in monkey (Myers), 47
- serum progesterone and chorionic gonadotropin concentrations, effects of fetal sex and weight and placental weight on (Spellacy et al.), 278
- Maturation, follicular, and ovulation, successful induction of, by prolonged treatment with LH-releasing hormone in women with anorexia nervosa (Nillius, Fries, and Wide), 921
- Maturation changes in fetal glomerular filtration rate (Robillard et al.), 601
- Maturity, fetal lung, amniotic fluid foam test, L/S ratio, and total phospholipids in evaluation of (Caspi, Schreyer, and Tamir), 323
- use of amniotic fluid bubble stability, L/S ratio, and creatinine concentration in assessment of (Olson et al.), 755
- Meconium aspiration, tracheal suction in (Ting and Brady), 767
- significance of, during labor (Miller et al.), 573
- staining of liquor amnii at amniocentesis, recognition of (Munday and Hamlett), 732
- Mediastinum, posterior, brain, and adrenal, endometrial carcinoma with predominant clear-cell pattern with metastases to (Nakano and Schoene), 529 (Comm. in brief)
- Medium, artificial, perfusion of human ovaries in vitro with: Metabolism and steroidogenesis (Kennedy, Schreiber, and Andreassen), 863
- Melanosis peritonei (Lee and Pontifex), 526 (Comm. in brief)
- Menstrual disorders in which secretory endometrium was found, review of (Taw), 490
- disturbance, plasma progesterone concentration in thyrotoxic women with (Akande), 887
- Mentally retarded, abdominal hysterectomy for surgical sterilization in: Review of parental opinion (Wheless), 872
- Mesodermal tumor, benign mixed, of uterus presenting at delivery (Burrows and Stroup), 531 (Comm. in brief)
- Metabolic control in diabetic pregnancy (Persson and Lunell), 737
- Metabolism, fetal cerebral function and, effect of alcohol on (Mann et al.), 845
- and steroidogenesis: Perfusion of human ovaries in vitro with artificial medium (Kennedy, Schreiber, and Andreassen), 863
- Metabolites, its, glutamate and, placental transfer of, in primate (Stegink et al.), 70
- Metastases to adrenal, posterior mediastinum, and brain, endometrial carcinoma with predominant clear-cell pattern with (Nakano and Schoene), 529 (Comm. in brief)
- Metastatic trophoblastic disease, cerebral manifestations of (Javaheeri and Sall), 989 (Comm. in brief)
- Methadone withdrawal, fetal stress from (Zuspan et al.), 43
- Microbiologic and radioisotopic assays for serum vitamin B₁₂ during pregnancy, comparison of results of (Green, Colman, and Metz), 21
- Microscopy, electron, of anterior pituitary, changes in LH-releasing hormone content of hypothalamus and, after prostaglandin E₂ injection in rats (Sato et al.), 637
- of placenta and related structures of marmoset (Wynn, Richards, and Harris), 60
- scanning electron, human endometrial kinetics as observed by (Hafez, Ludwig, and Metzger), 929
- placental villi from early and late in gestation (King and Menton), 824
- Microspheres, radioactive, use of, for studies of tubal ovum transport (Pauerstein et al.), 655
- Mid-trimester abortion induced by intravaginal administration of prostaglandin E₂ suppositories (Lauersen, Secher, and Wilson), 947
- Mole, hydatidiform, with coexistent fetus (Jones and Lauersen), 267
- Monitored labor, unforeseen sudden intrapartum fetal death in (Hayashi and Fox), 786 (Comm. in brief)
- Monitoring, fetal: Its effect on perinatal mortality and cesarean section rates and its complications (Tutera and Newman), 750
- neonatal value of (Hon, Zannini, and Quilligan), 508
- Monozygous twins, discordant severe cranial defects in (Osathanondh, Driscoll, and Naftolin), 301
- Morbidity, infant mortality rate and, effect of abnormal glucose tolerance in pregnancy on (Haworth and Dilling), 555
- neonatal, perinatal factors and, in twin pregnancy (Ho and Wu), 979
- Mortality, perinatal, and cesarean section rates, its effect on, and its complications: Fetal monitoring (Tutera and Newman), 750
- rate, infant, and morbidity, effect of abnormal glucose tolerance in pregnancy on (Haworth and Dilling), 555

- Motility, spontaneous, and distribution of prostaglandins in different segments of human Fallopian tubes (Vastik-Fernandez et al.), 663
- Mucus, human cervical, antibody activity in, V. Antibodies to spermatozoa (Shulman and Friedman), 101
- structural aspects of (Zaneveld et al.), 630
- Multiple births in drug-addicted women (Rementería, Janakammal, and Hollander), 958
- Mycotic infections, opportunistic, in pregnant women (Purtilo), 607

N

- Navajo population, use-effectiveness of two contraceptive methods in: Problem of program dropouts (Slocumb, Odoroff, and Kunitz), 717
- Needle, fine-, aspiration of breast in obstetrics and gynecology hospital (Bibbo and Zuppan), 525 (Comm. in brief)
- Neisseria gonorrhoeae*, effect of copper-containing intrauterine contraceptive device on, in vitro (Spence, Stutz, and Paniom), 783 (Comm. in brief)
- Neonatal, fetal, and maternal correlation: Amniotic fluid glucose (Wood and Sherline), 151
- morbidity, perinatal factors and, in twin pregnancy (Ho and Wu), 979
- perforation of colon (Georgy and Friedberg), 788 (Comm. in brief)
- value of fetal monitoring (Hon, Zannini, and Quilligan), 508
- Neonates, postmature, possible adrenocortical insufficiency in (Nwosu et al.), 969
- Neonatorum, gonococcal ophthalmia (Pierog et al.), 589
- Neoplasia, squamous, of vagina related to DES syndrome (Fetherston), 176
- Nervosa, anorexia, successful induction of follicular maturation and ovulation by prolonged treatment with LH-releasing hormone in women with (Nillius, Fries, and Wide), 921
- Neural tube defects, prenatal detection of (Milunsky et al.), 313
- Norepinephrine, uterine, variations in level of, during pregnancy in guinea pig (Owman et al.), 961
- Norgestrel, *d*-, intrauterine administration of: Biodegradable polylactate as steroid-releasing polymer (Nilsson et al.), 90
- Nurse practitioner, role of (Shively), 502
- Nutrients, transfer of, across placenta, changes in, during normal gestation in rat (Rosso), 761

O

- Obstetric(s) and gynecology hospital, fine-needle aspiration of breast in (Bibbo and Zuppan), 525 (Comm. in brief)
- patients, clinic population of, comparison of methods for collecting clean-catch urine specimens in [Chavigny and Moore (Nunnally)], 34
- Occipitoposterior position, fetal stress and labor in, VI. Computer diagnosis of labor progression (Sokol, Roux, and McCarthy), 253
- Oligomenorrhea, thyroxine-binding globulin deficiency and, study of kindred with (Wallace, Kapoor, and Veleanu), 79
- Oophoritis, granulomatous, and salpingitis associated with Crohn's disease of appendix (Wlodarski and Trainer), 527 (Comm. in brief)
- Operation, chemotherapy, second-look laparotomy, and radiation therapy: Sequential therapy for advanced ovarian adenocarcinoma (Piver et al.), 355
- Ophthalmia neonatorum, gonococcal (Pierog et al.), 589
- Oral contraception and uterine size—ultrasonic study (Piironen and Rauramo), 349
- contraceptive(s), comparative studies of ethynyl estrogens used in.
- I. Endometrial response (Goldzieher et al.), 615
 - II. Antiovarian potency (Goldzieher et al.), 619
 - III. Effect on plasma gonadotropins (Goldzieher et al.), 625
- use and thromboembolism, association between: New approach to investigation based on plasma fibrinogen chromatography (Alkjaersig, Fletcher, and Burstein), 199
- Osseous manifestations of gestational rubella in young human fetuses (Sekeles and Ornoy), 307

- Outpatient cervical cold conization with cryosurgical hemostasis (McDonnell and Sterger), 532 (Comm. in brief)
- procedure, assessment of diagnostic aspiration curettage as (Liu et al.), 106
- culdoscopic ligation as (Cheng et al.), 109
- Ovarian adenocarcinoma, advanced, sequential therapy for: Operation, chemotherapy, second-look laparotomy, and radiation therapy (Piver et al.), 355
- conservation, role of, in treatment of carcinoma of cervix with radical surgery (Webb), 476
- hypothalamic-pituitary-, function, effects of 0.5 mg. of lynestrenol daily on (Friedrich et al.), 642
- surgery in pregnancy (Hill, Johnson, and Lee), 565
- vein androgen levels, adrenal and, and laparoscopic findings in hirsute women (Northrop et al.), 192
- Ovaries, human, perfusion of, in vitro with artificial medium: Metabolism and steroidogenesis (Kennedy, Schreiber, and Andreassen), 863
- Ovulation, follicular maturation and, successful induction of, by prolonged treatment with LH-releasing hormone in women with anorexia nervosa (Nillius, Fries, and Wide), 921
- Ovum transport, tubal, use of radioactive microspheres for studies of (Pauerstein et al.), 655
- Oxytocin and prostaglandin E₂ in pregnant rhesus monkeys, uterine contractility and regional blood flow responses to (Novy, Thomas, and Lees), 419

P

- Pacific Coast Obstetrical and Gynecological Society, transactions, forty-first annual meeting, 419-524
- Pallidum*, *Treponema*, intracellular, in cells of syphilitic lesion of uterine cervix (Sykes and Kalan), 361
- Parental opinion, review of: Abdominal hysterectomy for surgical sterilization in mentally retarded (Wheless), 872
- Pathophysiology, management, and differential diagnosis: Urinary stress incontinence (Green), 368 (Current developments)
- Pelvic endometriosis and ureteral obstruction (Langmade), 463
- inflammatory disease, acute, bacteriology of (Chow et al.), 876
- tuberculosis, silent, reactivation of, by reconstructive tubal surgery (Ballon, Clewell, and Lamb), 991 (Comm. in brief)
- Perforation, neonatal, of colon (Georgy and Friedberg), 788 (Comm. in brief)
- Perfusion of human ovaries in vitro with artificial medium: Metabolism and steroidogenesis (Kennedy, Schreiber, and Andreassen), 863
- Perinatal factors and neonatal morbidity in twin pregnancy (Ho and Wu), 979
- infection and vaginal flora (Beargie et al.), 31
- mortality and cesarean section rates, its effect on, and its complications: Fetal monitoring (Tutera and Newman), 750
- Peripheral blood of pregnant women, increase in IgM-bearing lymphocytes in (Loke, Brook, and Allen), 561
- leukocytes, depression of blast transformation of, by plasma from pregnant women (Jha, Talwar, and Hingorani), 965
- Peritonei, melanosis (Lee and Pontifex), 526
- Periumbilical amniocentesis, suprapubic vs. (Gordon and Deukmedjian), 287
- Phosphatase, leukocyte alkaline, during labor (Sadovsky et al.), 264 (Comm. in brief)
- Phospholipid(s), total, foam test, and L/S ratio, amniotic fluid, in evaluation of fetal lung maturity (Caspi, Schreyer, and Tamir), 323
- values, other, of amniotic fluid, lecithin/sphingomyelin ratio of Gluck and, comparison between (Gebhardt and Beintema), 734
- Physiologic significance of 17 β -estradiol binding in rabbit Fallopian tube (Clemens et al.), 113
- Pituitary, anterior, electron microscopy of, changes in LH-releasing hormone content of hypothalamus and, after prostaglandin E₂ injection in rats (Sato et al.), 637
- ovarian, hypothalamic-, function, effects of 0.5 mg. of lynestrenol daily on (Friedrich et al.), 642

- Placenta to lamb fetus transfusion in utero during acute hypoxia (Oh et al.), 316
- and related structures of marmoset, electron microscopy of (Wynn, Richards, and Harris), 60
- sheep, transfer of lidocaine across, to fetus (Morishima et al.), 581
- transfer of nutrients across, changes in, during normal gestation in rat (Rosso), 761
- Placental transfer of glutamate and its metabolites in primate (Stegink et al.), 70
- transport of alcohol and its effect on maternal and fetal acid-base balance (Mann et al.), 837
- villi, human, from early and late in gestation, scanning electron microscopy of (King and Menton), 824
- weight, fetal sex and weight and, effects of, on maternal serum progesterone and chorionic gonadotropin concentrations (Spellacy et al.), 278
- Plasma estrogens in euthyroid and thyrotoxic women (Akande), 880
- fibrinogen chromatography, new approach to investigation based on: Association between oral contraceptive use and thromboembolism (Alkjaersig, Fletcher, and Burstein), 199
- gonadotropins, effect on, III. Comparative studies of ethynyl estrogens used in oral contraceptives (Goldzieher et al.), 625
- from pregnant women, depression of blast transformation of peripheral leukocytes by (Jha, Talwar, and Hingorani), 965
- progesterone concentration in thyrotoxic women with menstrual disturbance (Akande), 887
- renin and aldosterone in abdominal pregnancy with toxemia (Baehler et al.), 545
- Plate-count determinations, studies on nature of bacterial inhibition with use of, IV. Bacterial growth inhibition by amniotic fluid (Schlievert et al.), 814
- technique, new, demonstration of variability of bacterial growth inhibition by amniotic fluid with, III. Bacterial growth inhibition by amniotic fluid (Schlievert et al.), 809
- Poly lactate, biodegradable, as steroid-releasing polymer: Intrauterine administration of *d*-norgestrel (Nilsson et al.), 90
- Polymer, steroid-releasing, biodegradable poly lactate as: Intrauterine administration of *d*-norgestrel (Nilsson et al.), 90
- Position, occipitoposterior, fetal stress and labor in, VI. Computer diagnosis of labor progression (Sokol, Roux, and McCarthy), 253
- Posterior mediastinum, brain, and adrenal, endometrial carcinoma with predominant clear-cell pattern with metastases to (Nakano and Schoene), 529 (Comm. in brief)
- Postmature neonates, possible adrenocortical insufficiency in (Nwosu et al.), 969
- Postoperative hemorrhage, influence of size of cone specimens on (Rubio, Thomassen, and Kock), 939
- Practitioner, nurse, role of (Shively), 502
- Pregnancy (pregnancies), abdominal, with toxemia, plasma renin and aldosterone in (Baehler et al.), 545
- abnormal glucose tolerance in, effect of, on infant mortality rate and morbidity (Haworth and Dilling), 555
- cardiac performance during: Serial evaluation using external systolic time intervals (Liebson et al.), 1
- comparison of results of microbiologic and radioisotopic assays for serum vitamin B₁₂ during pregnancy (Green, Colman, and Metz), 21
- complicated, amniotic fluid lecithin/sphingomyelin ratio in (Dyson, Blake, and Cassidy), 772
- by diabetes, amniotic fluid creatinine in (Cassidy et al.), 13
- by intravenous leiomyomatosis (Miller), 485
- by maternal intrahepatic cholestasis, fetal bile acid levels in (Laatikainen), 852
- Crohn's disease and (Martimbeau, Welch, and Weiland), 746
- diabetic, metabolic control in (Persson and Lunell), 737
- influence of, on kinetics of insulin (Bellmann and Hartmann), 829
- management of idiopathic thrombocytopenic purpura during (Laros and Sweet), 182
- normal, surface properties of amniotic fluid in (Müller-Tyl et al.), 295
- ovarian surgery in (Hill, Johnson, and Lee), 565
- primate, calcitonin effects in (Reynolds, Pitkin, and Wetzman), 212
- repeat ectopic: Study of 123 consecutive cases (Hallatt), 520
- Pregnancy—Cont'd
- ruptured appendix in (Burkman and Friedlander), 265 (Comm. in brief)
- second trimester of, fetal crown-rump length and biparietal diameter in (Berger, Edelman, and Kerenyi), 9
- serum amylase changes during (Kaiser, Berk, and Fridhandler), 283
- thyroid disease in (Prout) 669 (Current developments)
- toxemia, term, immunologic aspects of (Yang, Kleinman, and Wei), 727
- twin, perinatal factors and neonatal morbidity (Ho and Wu), 979
- variations in level of uterine norepinephrine during, in guinea pig (Owman et al.), 961
- Pregnant rhesus monkeys, uterine contractility and regional blood flow responses to oxytocin and prostaglandin E₂ in (Novy, Thomas, and Lees), 419
- women, depression of blast transformation of peripheral leukocytes by plasma from (Jha, Talwar, and Hingorani), 965
- increase in IgM-bearing lymphocytes in peripheral blood of (Loke, Brook, and Allen), 561
- influence of advancing gestation on group B streptococcal colonization in (Baker, Barrett, and Yow), 820
- opportunistic mycotic infections in (Purtillo), 607
- Prehysterectomy patients, 100, bacterial flora of cervix from (Ohn and Galask), 683
- Prenatal detection of neural tube defects (Milunsky et al.), 313
- sex detection with endocervical smears: Successful results utilizing Y-body fluorescence (Rhine et al.), 155
- Progesterone and chorionic gonadotropin concentrations, maternal serum, effects of fetal sex and weight and placental weight on (Spellacy et al.), 278
- concentration, plasma, in thyrotoxic women with menstrual disturbance (Akande), 887
- Prolapse, genital, and urinary stress incontinence in women, colpocystography in cases of (Lazarevski et al.), 704
- uterine, with incarceration (Chambers), 459
- Prophylactic use of Keflex and Keflin in vaginal hysterectomy (Bivens, Neufeld, and McCarty), 169
- Prostaglandin(s) E₂ injection in rats, changes in LH-releasing hormone content of hypothalamus and electron microscopy of anterior pituitary after (Sato et al.), 637
- oxytocin and, in pregnant rhesus monkeys, uterine contractility and regional blood flow responses to (Novy, Thomas, and Lees), 419
- suppositories, mid-trimester abortion induced by intravaginal administration of (Lauersen, Secher, and Wilson), 947
- in human endometrium (Grén and Hagenfeldt), 611
- spontaneous motility and distribution of, in different segments of human Fallopian tubes (Vastik-Fernandez et al.), 663
- suppositories, reduction of cervical resistance by, prior to dilatation for induced abortion (Dingfelder et al.), 25
- Protein, newly described acute-phase, relationship of, to human gestation (Knox et al.), 955
- Psychological sequelae of abortion performed for genetic indication (Blumberg, Golbus, and Hanson), 799
- stress, maternal, and fetal asphyxia: Study in monkey (Myers), 47
- Puerperal lactation, clomiphene citrate in suppression of (Kalir, David, and Kraicer), 570
- Punch biopsy, directed, conization, and colposcopic grading, correlation between (Boelter and Newman), 945
- Purpura, idiopathic thrombocytopenic, management of, during pregnancy (Laros and Sweet), 182

R

- Radiation therapy, operation, chemotherapy, and second-look laparotomy: Sequential therapy for advanced ovarian adenocarcinoma (Piver et al.), 355
- Radical surgery, role of ovarian conservation in treatment of carcinoma of cervix with (Webb), 476
- Radioactive microspheres, use of, for studies of tubal ovum transport (Pauerstein et al.), 655
- Radioisotopic assays, microbiologic and, for serum vitamin B₁₂ during pregnancy, comparison of results of (Green, Colman, and Metz), 21

- Ramathibodi box: Simple and inexpensive teaching aid for laparoscopy (Chaturachinda), 992 (Comm. in brief)
- Ratio(s), amniotic fluid lecithin-sphingomyelin, changes in, following maternal dexamethasone administration (Caspi et al.), 372
in complicated pregnancies (Dyson, Blake, and Cassady), 772
cortisol and lecithin/sphingomyelin, relationship between, in human amniotic fluid (Sivakumaran et al.), 291
L/S, creatinine concentration, and bubble stability, amniotic fluid, use of, in assessment of fetal maturity (Olson et al.), 755
of Gluck and other phospholipid values of amniotic fluid, comparison between (Gebhardt and Beintema), 734
total phospholipids, and foam test, amniotic fluid, in evaluation of fetal lung maturity (Caspi, Schreyer, and Tamir), 323
transversal and longitudinal lecithin-sphingomyelin, in amniotic and lung fluids of fetal lambs (Rethmeier and Egberts), 593
- Releasing hormone, LH-, content of hypothalamus, changes in, and electron microscopy of anterior pituitary after prostaglandin E₂ injection in rats (Sato et al.), 637
successful induction of follicular maturation and ovulation by prolonged treatment with, in women with anorexia nervosa (Nilius, Fries, and Wide), 921
- Renin, plasma, and aldosterone in abdominal pregnancy with toxemia (Baehler et al.), 545
- Reproduction, hypothalamus and (Schally, Kastin, and Arimura), 857
- Retarded, mentally, abdominal hysterectomy for surgical sterilization in: Review of parental opinion (Wheless), 872
- Rubella, gestational, osseous manifestations of, in young human fetuses (Sekeles and Ornoy), 307
- Rump, crown-, length, fetal, and biparietal diameter in second trimester of pregnancy (Berger, Edelman, and Kerenyi), 9
- Ruptured appendix in pregnancy (Burkman and Friedlander), 265 (Comm. in brief)
- S
- Saline injection, intra-amniotic, response of primate fetus to (Comas-Urrutia, Adamsons, and Myers), 549
- Salpingitis, granulomatous oophoritis and, associated with Crohn's disease of appendix (Wlodarski and Trainer), 527 (Comm. in brief)
- Scalp electrodes, fetal, complications of: Case report (Turbeville et al.), 530
- Scanning electron microscopy, human endometrial kinetics as observed by (Hafez, Ludwig, and Metzger), 929
placental villi from early and late in gestation (King and Menton), 824
- Second-look laparotomy, radiation therapy, operation, and chemotherapy: Sequential therapy for advanced ovarian adenocarcinoma (Piver et al.), 355
trimester, biparietal diameter of skull and fetal weight in: Allometric relationship (Bartolucci), 439
of pregnancy, fetal crown-rump length and biparietal diameter in (Berger, Edelman, and Kerenyi), 9
- Secretory endometrium was found, review of menstrual disorders in which (Taw), 490
- Section rates, cesarean, perinatal mortality and, its effect on, and its complications: Fetal monitoring (Tutera and Newman), 750
- Semen, donor, artificial insemination with, current status of (Goss), 246
- Sequential therapy for advanced ovarian adenocarcinoma: Operation, chemotherapy, second-look laparotomy, and radiation therapy (Piver et al.), 355
- Serum amylase changes during pregnancy (Kaiser, Berk, and Fridhandler), 283
progesterone and chorionic gonadotropin concentrations, maternal, effects of fetal sex and weight and placental weight on (Spellacy et al.), 278
vitamin B₁₂ during pregnancy, comparison of results of microbiologic and radioisotopic assays for (Green, Colman, and Metz), 21
- Sex detection, prenatal, with endocervical smears: Successful results utilizing Y-body fluorescence (Rhine et al.), 155
and weight, fetal, and placental weight, effects of, on maternal serum progesterone and chorionic gonadotropin concentrations (Spellacy et al.), 278
- Skull, biparietal diameter of, and fetal weight in second trimester: Allometric relationship (Bartolucci), 439
- Smears, endocervical, prenatal sex detection with: Successful results utilizing Y-body fluorescence (Rhine et al.), 155
- Specimens, cone, influence of size of, on postoperative hemorrhage (Rubio, Thomassen, and Kock), 939
- Spermatozoa, antibodies to. V. Antibody activity in human cervical mucus (Shulman and Friedman), 101
- Sphingomyelin, lecithin-, ratio(s), amniotic fluid, changes in, following maternal dexamethasone administration (Caspi et al.), 327
in complicated pregnancies (Dyson, Blake, and Cassady), 772
cortisol and, relationship between, in human amniotic fluid (Sivakumaran et al.), 291
creatinine concentration, and bubble stability, amniotic fluid, use of, in assessment of fetal maturity (Olson et al.), 755
of Gluck and other phospholipid values of amniotic fluid, comparison between (Gebhardt and Beintema), 734
total phospholipids, and foam test, amniotic fluid, in evaluation of fetal lung maturity (Caspi, Schreyer, and Tamir), 323
transversal and longitudinal, in amniotic and lung fluids of fetal lambs (Rethmeier and Egberts), 593
- Squamous neoplasia of vagina related to DES syndrome (Fetherston), 176
- Stability, bubble, L/S ratio, and creatinine concentration, amniotic fluid, use of, in assessment of fetal maturity (Olson et al.), 755
- Staining, meconium, of liquor amnii at amnioscopy, recognition of (Munday and Hamlett), 732
- Sterilization, female. III. Vaginal hysterectomy (Laros and Work), 693
surgical, in mentally retarded, abdominal hysterectomy for: Review of parental opinion (Wheless), 872
- Steroid-releasing polymer, biodegradable polylactate as: Intrauterine administration of *d*-norgestrel (Nilsson et al.), 90
- Steroidogenesis, metabolism and: Perfusion of human ovaries in vitro with artificial medium (Kennedy, Schreiber, and Andreassen), 863
- Streptococcal colonization, group B, in pregnant women, influence of advancing gestation on (Baker, Barrett, and Yow), 820
- Stress, fetal, and labor in occipitoposterior position, VI. Computer diagnosis of labor progression (Sokol, Roux, and McCarthy), 253
from methadone withdrawal (Zupan et al.), 43
incontinence, urinary: Differential diagnosis, pathophysiology, and management (Green), 368 (Current developments)
genital prolapse and, in women, colpocystography in cases of (Lazarevski et al.), 704
maternal psychological, and fetal asphyxia: Study in monkey (Myers), 47
urinary incontinence, recurrent, repeat Marshall-Marchetti procedure for (Lee and Symmonds), 219
- Suction, tracheal, in meconium aspiration (Ting and Brady), 767
- Suppositories, prostaglandin E₂, mid-trimester abortion induced by intravaginal administration of (Lauersen, Secher, and Wilson), 947
reduction of cervical resistance by, prior to dilatation for induced abortion (Dingfelder et al.), 25
- Suprapubic vs. periumbilical amniocentesis (Gordon and Deukmedjian), 287
- Surgery, ovarian, in pregnancy (Hill, Johnson, and Lee), 565
radical, role of ovarian conservation in treatment of carcinoma of cervix with (Webb), 476
reconstructive tubal, reactivation of silent pelvic tuberculosis by (Ballon, Clewell, and Lamb), 991 (Comm. in brief)
- Surgical sterilization in mentally retarded, abdominal hysterectomy for: Review of parental opinion (Wheless), 872
- Syndrome, DES, squamous neoplasia of vagina related to (Fetherston), 176
- Syphilitic lesion of uterine cervix, intracellular *Treponema pallidum* in cells of (Sykes and Kalan), 361
- Systolic time intervals, external, serial evaluation using: Cardiac performance during pregnancy (Liebson et al.), 1

T

- Tamm-Horsfall urinary glycoprotein, identification of, in human amniotic fluid (Ross et al.), 790 (Comm. in brief)
- Teaching aid, simple and inexpensive, for laparoscopy: Ramathibodi box (Chaturachinda), 992 (Comm. in brief)
- Term delivery through cervicovaginal fistula (Pelosi et al.), 789 (Comm. in brief)
- pregnancy toxemia, immunologic aspects of (Yang, Kleinman, and Wei), 727
- Test, foam, L/S ratio, and total phospholipids, amniotic fluid, in evaluation of fetal lung maturity (Caspi, Schreyer, and Tamir), 323
- Therapy, sequential, for advanced ovarian adenocarcinoma: Operation, chemotherapy, second-look laparotomy, and radiation therapy (Piver et al.), 355
- with 2-Brom-*n*-ergocryptine (CB-154), results of: Amenorrhea and galactorrhea (Lloyd, Josimovich, and Archer), 85
- Thrombocytopenic purpura, idiopathic, management of, during pregnancy (Laros and Sweet), 182
- Thromboembolism, oral contraceptive use and, association between: New approach to investigation based on plasma fibrinogen chromatography (Alkjaersig, Fletcher, and Burstein), 199
- Thyroid disease in pregnancy (Prout), 669 (Current developments)
- Thyrotropic women, euthyroid and, plasma estrogens in (Akande), 880
- with menstrual disturbance, plasma progesterone concentration in (Akande), 887
- Thyroxine-binding globulin deficiency and oligomenorrhea, study of kindred with (Wallace, Kapoor, and Veleanu), 79
- Toxemia, plasma renin and aldosterone in abdominal pregnancy with (Baehler et al.), 545
- term pregnancy, immunologic aspects of (Fang, Kleinman, and Wei), 727
- Tracheal suction in meconium aspiration (Ting and Brady), 767
- Tract, female genital, anaerobic infections of (Sweet), 891 (Current developments)
- Transactions, forty-first annual meeting, Pacific Coast Obstetrical and Gynecological Society, 419-524
- forty-second annual meeting, Central Association of Obstetricians and Gynecologists, 139-260
- Transfer of lidocaine across sheep placenta to fetus (Morishima et al.), 581
- of nutrients across placenta, changes in, during normal gestation in rat (Rosso), 761
- placental, of glutamate and its metabolites in primate (Stegink et al.), 70
- Transfusion, placenta to lamb fetus, in utero during acute hypoxia (Oh et al.), 316
- Transport, placental, of alcohol and its effect on maternal and fetal acid-base balance (Mann et al.), 837
- Transversal and longitudinal lecithin-sphingomyelin ratios in amniotic and lung fluids of fetal lambs (Rethmeier and Egberts), 593
- Traumatic cervical amputation: Complication of cervical cryosurgery (Levin), 785 (Comm. in brief)
- Treatment of carcinoma of cervix with radical surgery, role of ovarian conservation in (Webb), 476
- prolonged, with LH-releasing hormone, successful induction of follicular maturation and ovulation by, in women with anorexia nervosa (Nillius, Fries, and Wide), 921
- Treponema pallidum*, intracellular, in cells of syphilitic lesion of uterine cervix (Sykes and Kalan), 361
- Trimester, second, biparietal diameter of skull and fetal weight in: Allometric relationship (Bartolucci), 439
- of pregnancy, fetal crown-rump length and biparietal diameter in (Berger, Edelman, and Kerenyi), 9
- Trophoblastic disease, metastatic, cerebral manifestations of (Javaheri and Sall), 989 (Comm. in brief)
- Tubal ovum transport, use of radioactive microspheres for studies of (Pauerstein et al.), 655
- surgery, reconstructive, reactivation of silent pelvic tuberculosis by (Ballon, Clewell, and Lamb), 991 (Comm. in brief)
- Tube(s) defects, neural, prenatal detection of (Milunsky et al.), 313
- human Fallopian, spontaneous motility and distribution of prostaglandins in different segments of (Vastik-Fernandez et al.), 663
- rabbit Fallopian, physiologic significance of 17 β -estradiol binding in (Clemens et al.), 113

- Tuberculosis, silent pelvic, reactivation of, by reconstructive tubal surgery (Ballon, Clewell, and Lamb), 991 (Comm. in brief)
- Tubocclusion methods, simpler, studies in (Hulka), 337
- Tumor, benign mixed mesodermal, of uterus presenting at delivery (Burrows and Stroup), 531 (Comm. in brief)
- Twin(s), monozygous, discordant severe cranial defects in (Osathanondh, Driscoll, and Naftolin), 301
- pregnancy, perinatal factors and neonatal morbidity in (Ho and Wu), 979

U

- Ultrasonic study—oral contraception and uterine size (Piironen and Rauramo), 349
- Uptake, interactions in, between catecholamines and estradiol in human uterus (Pedroza-Garcia et al.), 96
- Ureteral obstruction, pelvic endometriosis and (Langmade), 463
- Urinary glycoprotein, Tamm-Horsfall, identification of, in human amniotic fluid (Ross et al.), 790 (Comm. in brief)
- incontinence, recurrent stress, repeat Marshall-Marchetti procedure for (Lee and Symmonds), 219
- stress incontinence: Differential diagnosis, pathophysiology, and management (Green), 368 (Current developments)
- genital prolapse and, in women, colpocystography in cases of (Lazarevski et al.), 704
- Urine specimens, clean-catch, comparison of methods for collecting, in clinic population of obstetric patients [Chavigny and Moore (Nunnally)], 34
- Uterine blood flow, estrogen-induced, effect of actinomycin D on (Resnik et al.), 273
- cervix, adenocarcinoma of (Rutledge et al.), 236
- intracellular *Treponema pallidum* in cells of syphilitic lesion of (Sykes and Kalan), 361
- contractility and regional blood flow responses to oxytocin and prostaglandin E₂ in pregnant rhesus monkeys (Novy, Thomas, and Lees), 419
- fibromyoma, erythropoietin-producing, erythrocytosis due to (Weiss, Aldor, and Aboulafia), 358
- norepinephrine, variations in level of, during pregnancy in guinea pig (Owman et al.), 961
- prolapse with incarceration (Chambers), 459
- size, oral contraception and—ultrasonic study (Piironen and Rauramo), 349
- Utero, placenta to lamb fetus transfusion in, during acute hypoxia (Oh et al.), 316
- Uterus, benign mixed mesodermal tumor of, presenting at delivery (Burrows and Stroup), 531 (Comm. in brief)
- human, interactions in uptake between catecholamines and estradiol in (Pedroza-Garcia et al.), 96

V

- Vagina, squamous neoplasia of, related to DES syndrome (Fetherston), 176
- Vaginal carcinoma, management of, after hysterectomy (Usherwood), 352
- flora, perinatal infection and (Beargie et al.), 31
- Vaginal hysterectomy, III. Female sterilization (Laros and Work), 693
- prophylactic use of Keflex and Keflin in (Bivens, Neufeld, and McCarty), 169
- Vein androgen levels, adrenal and ovarian, and laparoscopic findings in hirsute women (Northrop et al.), 192
- Ventricular arrhythmia, fetal, intrauterine diagnosis and control of, during labor (Eibschitz et al.), 597
- Villi, human placental, from early and late in gestation, scanning electron microscopy of (King and Menton), 824
- Vitamin B₁₂, serum, during pregnancy, comparison of results of microbiologic and radioisotopic assays for (Green, Colman, and Metz), 21

W

- Weight(s), birth, of infants, effect of folic acid supplement on (Iyengar and Rajalakshmi), 332

Weight(s)—Cont'd

- fetal, biparietal diameter of skull and, in second trimester: Allometric relationship (Bartolucci), 439
- sex and, and placental weight, effects of, on maternal serum progesterone and chorionic gonadotropin concentrations (Spelacy et al.), 278
- Withdrawal, methadone, fetal stress from (Zuspan et al.), 43

Y

- Y-body fluorescence, successful results utilizing: Prenatal sex detection with endocervical smears (Rhine et al.), 155

Z

- Zatuchni-Andros Prognostic Scoring Index, six-year prospective study of term breech deliveries utilizing: Closing discussion, 306
